THE NAVY DEPARTMENT

Important Features of Secretary Long's Annual Report.

THE INCREASE RECOMMENDED

Two Battleships, Two Armored Cruisers, Six Light Draft Gunboats and Some Small Craft.

Washington Nov 26—Secretary Long has presented the report of the navy department for the past year It is in part as follows

Operations in the East

The fleet on the Asiatic stat on has co operated with the army in the Philippines transporting and convoying troops patrolling a wide a ea of badly charted waters sending out landing parties and keeping the coast clear of th n my The small gunboats have been of great value in preventing the landing of arms for the insurgents and cutting off illicit trade with and among the islands

The cordility which has character ized the relations of the army and navy is shown by numerous reports from office rs on duty in the Philippines and is alike creditable to both branches of the servic

In view of the disturbed conditions in Asiatic waters and of the demands upon the navy the department early in the year deemed it expedient to aug ment the force in that quarter The command in chief of the Asiatic sta tion Rear Admiral Bunce was accordingly given an assistant Rear Admiral Kempff to insure under command of an officer of rank and experi ence a division of the fleet if necessary, in quarters distant from the Philippines Almost immediately thereafter circumstances made it necessary to maintain a legation guard in Chinese waters and the junior rear admiral was ordered to proceed with a squad ron to Ta ku China

When therefore an appeal for help came from the legations at Peking the government not only had an adequate naval force at the nearest seaport town but was able to send forward immediately a force of marines for the protection of the United States legation The small marine guard assigned to this duty under the command of Captain John T Myers consisted of 56 officers and men made up of detachments from the Chesapeake and Newark They reached the Chinese capital in the latter part of May only a short time before the representatives and citizens of foreign countries in that city were subjected to siege and cut off from communication with the rest of the world

The Story of Peking

The annals of history present few examples of more dramatic interest than the story of the beleaguered legations in Peking from June 20 1900 the date on which the German minister was killed and the siege began until August 14 when the allied forces entered the Chinese capital Official and unofficial reports and particularly the dispatches of our minister show that the American marines bore their full share in the burdens of defense during [illegible] The United States legation was situated just inside of and close to the wall of the Tartar city When the legations were assaulted the American detachment immediately occupied a position on that city wall a strategic point of great importance established an improvised sandbag fort there which enabled them to defend the section of wall immediately commanding the legations and although repeatedly attacked by overwhelming numbers and on two occasions driven for a few minutes from the wall they were never permanently dislodged but held this vital position until relief came

Some days before the siege began and while railway communication with the Chinese capital was still open arrangements had been made for the prompt dispatch for the protection of the lives and property of Americans in the city of another and larger detachment from our fleet at Ta ku This second detachment was made up chiefly of seamen under command of Captain Bowman H McCalla United States navy and was ready in the early part of June to join such other expedition as the other governments interested might determine to send forward from their fleets at the mouth of the river

On the night of June 9 Admiral Seymour of the British navy the ranking naval officer received a telegram from the British minister at Peking advising him that unless those at Peking were relieved soon it would be too late At 9 30 the next morning a relief column under command of Admiral Seymour started for the Chinese capital by train the expedition consisting of 915 British officers seamen and marines 450 German 312 Russian 158 French 112 American, 54 Japanese 40 Italian and 25 Austrian a total of 2 066 Finding at Lang fang that the railway had been so much damaged as to render it useless as a means of advance this column after 10 days fighting in a difficult country without the the transportation ammunition or supplies necessary to ar extended campaign encumbere by wounded to the number of 320 and en tirely cut off from communication front and rear was obliged June 20 to fall back and having on their return reach captured the imperial armory near Hsiku a few miles above Tien tsin there awaited reinforcements Of the part borne in this hazardous expedition by the American sailors honorable mention is made in all reports The British admiral himself in a letter to the senior United States naval officer at Ta ku says

I cannot conclude my letter without expressing to you sir the high admiration I have for Captain B H McCalla who accompanied us in command of your officers and men Their post was usually in the advanced guard where their zeal and go was praised by all I regret to state that Captain McCalla was wounded in three places but considering the gallant way in which he exposed himself I am only equally surprised and thankful that he is alive

Attack on Tien tsin

In the meantime the foreign settlement in Tien tsin itself was subjected to attack, and communication between that city and Ta ku was interrupted On June 19 a detachment of eight officers and 132 enlisted men chiefly from the First regiment of marines dispatched from Cavite by the Newark and Nashville arrived at Ta ku Instructions were immediately given that this force should take part in the forward movement for the relief of the besieged at Tien tsin This force, augmenting a little more than 500 men was however too small to accomplish its object and was speedily driven back by overwhelming numbers

The following day June 22 British Russian German and Italian and Japanese reinforcements arrived, making a combined force of about 5 000 men The foreign city of Tien tsin was entered and the siege raised On Sunday morning June 24 an advance was made to the relief of Admiral Seymour s command who were intrenched at a point about eight miles from Tien tsin This movement was accomplished with little opposition and early on the morning of July 14 the walled city of Tien tsin was captured by the allied forces

PROHIBITIONISTS

Have Already Begun Collecting Funds for 1904

Chicago Nov 26—Chairman Stewart of the Prohibition national committee announced today that funds for the campaign of 1904 are already being collected and that it was the intention of the party leaders to make even a more vigorous campaign than the last one

William T Wardwell of New York for the past 12 years secretary of the Prohibition national committee has tendered his resignation because of advancing age and generally feeble health

REPUBLIC IRON AND STEEL

Chicago Nov 26—At the quarterly meeting of the board of directors of the Republic Iron and Steel company held here today a dividend was declared of 1¾ per cent on preferred stock

Thousands of men and women suffer from piles, especially women with female weakness have this suffering to contend with in addition to their other pains TABLER'S BUCKEYE PILE OINTMENT will quick effect a cure Price 50 cts in bottles tubes 75 cts Hefley Arcularius Drug Co, 21 South Jon street.

DUKE OF MANCHESTER TO ENTER BRITISH POLITICS

New York Nov 26—Eugene Zimmerman whose daughter was married to the Duke of Manchester a week or so ago in England was interviewed here today He said to a reporter

I have come here to meet my daughter and her husband After they have rested here a few days we will go to Cincinnati and a reception will be given at my home The duke is a bright chap He is a fine manly fellow I like a man who went to work as he did as a newspaper man when he was here Some of his articles were first rate too At no time was I opposed to his marriage to my daughter Those stories are all moonshine

Is it true that the duke is in a bad way financially? asked the reporter

I guess there won t be any difficulty about his debts Not at all That does not make any difference I don t care to speak about the marriage portion That is a private matter But there won t be any trouble about debts

Is it likely that the duke may settle down in America and enter the railroad business?

No no the duke is going into British politics He is entitled to a seat in the house of lords and he is going to turn his attention to politics

AMBASSADOR WHITE HAD SATISFACTORY INTERVIEW

Berlin Nov 26—The entire German press refers editorially this evening to a report that United States Ambassador White on Sunday had decided the American note regarding the Chinese settlement to Baron Von Richthofen, secretary of foreign affairs all the papers declaring that Germany refused to comply with the demands therein formulated When Mr White was approached on this subject this evening he replied that he had no interview with Baron Von Richthofen on Sunday nor had he then received the American note He asserted that he had received nothing from Washington since Thursday and that what he received then was not a note but merely instructions in consequence of which he had an interview with the secretary of foreign affairs on Friday

Mr White reiterated that the report of the Friday interview was satisfactory adding

It was merely an interview and exchange of views, in which no definite propositions were submitted and no definite engagements were entered up on What was said was in the nature of a suggestion looking toward greater moderation in the punishments but this was only a suggestion which Germany could either accept or reject It was not a formal proposition

Democrats in Pueblo county have filed notice of contest claiming that Republican state representatives in that county were elected by fraud

Grand Junction beet sugar output this year will be about 8 000 sacks

Coroner s jury has returned a verdict that N B Bailey of Eldora came to his death from effects of a gunshot wound inflicted by parties unknown

Dr John Gardiner professor of biology at the state university is dead

Alonzo Welty one of the pioneers of the state died in Cripple Creek yesterday morning as the result of injuries received in a runaway October 17

FOREIGN

Despite absurd stories of imaginary interviews with the Duke of Manchester it is stated positively that he has no intention of remaining in America but will take an active part in British politics

GENERAL

Senator Davis physicians now practically admit that his death is a matter of a comparatively short time

MINING.

The market opened rather weak yesterdays on the local mining exchange but strengthened in the afternoon in all departments Felispe Consolidated scored an advance of 10 cents and St. Thomas was in good demand around 8½

The new management of the Cripple Creek Columbia will install a heavy plant of machinery capable of operating to a depth of 1,000 feet the first of the year and then attain a depth of 500 feet as rapidly as possible

The Beacon Hill Mine company has granted a lease on the south end of its claim of the same name to Geo M Crosby and a shaft one will be granted on the north end to one will be known as the company reserving the middle block for itself

A strike has been made in the Home claim of the Commonwealth company at the depth of 175 feet Between two and three feet of vein matter has been exposed and assays run between $15 and $40 in gold to the ton

The Solitaire company has granted a lease to F Becker on the Gilkorn mine on Carbonate hill for a term of eighteen months, stipulating for ninety shifts of work a month and 20 per cent royalties

Go After the Dukedom

Hon E F Ware has addressed the following epistle to a Topeka man who is thinking of aspiring to a dukedom under the McKinley empire

As the empire is now an established fact and you have a son in the 20th Kansas you have a just claim to the appointment of duke My advice to you is to make application soon Don t ask for something equally as good but you insist on duke They may want to make you an earl or a marquis or something but don t you be switched off Insist just hold the emperor up by the guitar and he s bound to come to your terms Dukes don t have to be confirmed by the senate and it s a life appointment There s no salary attached to the office but you have a right to enslave and hold in bondage any Democrat or Pop where ever he is found They are what we call in law feroe naturae that is, wild stuff The man that gets them has them just like ground hogs and pelicans If you get in early you get your first pick You want to go to Webb McNall and D O McCray just as soon as you get your commission They expect it They said if McKinley was elected we would be a nation of slaves You tell them Empire is here I m a duke and you are my meat follow me and they will follow you right off anywhere I think Joe Waters is all right, too

You want to have iron heels put on your boots and make your slaves wear turn down collars so that you can put the iron heel of despotism on their necks without the consent of the governed The duties of the office are few and simple I understand in Europe where they hate dukes You wake up in the morning and you call in your slaves as you want them and you talk Shakespeare to them For instance You summon McCray and shout at him

Fusubin knave! Bring me this morning my matutinal martini. He goes out and brings you in a cocktail of which he drank half in order to prevent you from being poisoned by the pointist Then you shout What minion, Ho and in comes McNall and you order oatmeal or codfish balls or anything you want and then say "Arpoint which means for him to kick himself off Then you bring in Joe and say, Ha varlet, a Keywester—three for a dollar Then Joe will go down on his hands and knees and say Yes your dukeness and then you will say "exeunt omnes and everybody will immediately go out in brackets Don t be apprehensive about where the money is to come from You ll have plenty You will coin the sweat and blood of the serfs If they don t work you can have the regular army kill them Think of 40 Democrats in the back yard clanking their chains with hot scalding tears running down their furrowed cheeks while you swing listlessly in your hammock listening to the music of the bondsman s groan It will be like a trip to Long Beach You will be listening to the surf sea?

Anything I can do for you with the emperor let me know Yours

E F Ware—

JUDGMENT FOR MAY

American Claimant is Reported to to Have Received an Award of $140,000.

Washington Nov 26—It is unofficially but reliably reported to the department of state that Mr Jenner the British umpire in the arbitration of the case of Robert H May an American citizen against the government of Guatemala has rendered a judgment in favor of the claimant to the amount of $140 000 in American gold

May entered into a contract with the Guatemala government to operate and improve a railway for which he was to receive a monthly subvention of $35 000 keep the revenues of the road and be paid for certain extra work He began his work in April 1898 but in October of the same year was disappointed by military force

A GARFIELD PIONEER

E. J Kennedy of Rifle Accidentally Killed on Trestle Near Glenwood Springs

Special to the Gazette

Glenwood Springs Nov 26—E J Kennedy who has been in attendance at the district court during the past weeks as a juror was found dead about 9 o clock this morning at the east end of the trestle bridge of the Colorado Midland Railroad company

Mr Kennedy was a widower nearly 60 years old and has been a resident of this city for 17 years He leaves five grown daughters two of whom reside at Denver two at Cripple Creek and one at Del Norte and one son Wm P Kennedy editor and proprietor of the Rifle Reveille published at Rifle in this county and with whom his father resided.

No money was found upon Mr Kennedy s person His left jaw was badly fractured and his left wrist cut by falling upon loose timbers lying on the ground close to the trestle bridge

Coroner Hotorp held an inquest upon the body this afternoon and the jury reached a verdict of accidental death His remains will be shipped to Rifle on this evening s train Where the interment will be made

What is Required of War Ship Boilers

The requirements of the navy are quite distinct from those of the mercantile marine in which a vessel leases one port for another at a uniform speed and is rarely if ever called upon to increase her speed suddenly to the maximum possible The highest naval authorities have laid down certain inflexible conditions, and these conditions are such as to differentiate the naval steam generator from that of the mercantile marine

First—Must be able to drop down from full high speed to dead slow and ice versa

Second—Must provide a high evaporative potential along with a low weight of structure and these qualifications must be associated with a satisfactory factor of heat utilization in power development

Third—In the fullest speed periods no smoke that will serve as an object of discovery for the enemy shall issue from the funnels

Fourth—The boiler must be compact as possible, occupying the least possible cubic space Full must be raised from the cold in one hour

Fifth—All the conditions specified must be secured without involving any risk or danger that might disturb the confidence of the firemen and supervising staff—(B H Thwaite in The Engineering Magazine for November

China Against the World

The total arms bearing population of Europe is less than 35,412 000 men Add to that 15 000 000 more from North America, and you still have less than 50 000 000 capable of bearing arms but for every one of them China has two One hundred million men with which to preserve the ancient empire There are other respects in which China has the world at a disadvantage In stability endurance and indifference to discomforts no people in the world can match the Chinese while their ability to subsist and work on what others would starve on is notorious Accustomed to unsanitary surroundings they thrive in camps where others would be decimated by epidemics while on account of the cheapness of her labor no other power can wage war so cheaply as can China—(Guy Morrison Walker in Leslie s Weekly

Danger in Anti-Fat Remedies

The newspapers tell of a man out in Indiana brought to the point of death as the result of the use of remedies for obesity Two years ago the man weighed 350 pounds He began to take anti fat remedies He lost flesh rapidly but impaired his constitution Ulceration of the stomach and liver set in and an Indianapolis specialist called and said his death was only a matter of time Anti fat remedies as a rule are dangerous and should be avoided The most effective and sensible remedies for obesity are exercise and proper diet Massage which has the same effect as exercise in a degree may also be recommended But walking horseback riding or any other activity in the open air if persisted in regularly will not fail to reduce the flesh and that in a normal and healthy way If at the same time the patient will put himself on a simple diet, which may be prescribed by any physician the desired result will be still further hastened—(Leslie s Weekly

English and American Coal Production

In the latest figures available we find that the coal output for the United Kingdom in 1899 is given as 220 085 000 tons and the exports including bunkers and coke at 56 335 361 tons The total coal exported last year by Great Britain was 41 180 300 tons valued at £23,105,691 a further 12,996 501 tons being supplied for the bunkers of steamers engaged in foreign trade According to the figures supplied by the United States geological survey, the output of coal in the states last year was 196 405 935 long tons. The British Board of Trade is a little more generous in the matter and credits American pits with an output last year of 218 376 000 tons However that may be there appears to be no reason to doubt the figures referring to the United States export of coal during last year which are given at 5,752,150 long tons, valued at $15 713 376 or roughly £3,145 000

Combining these figures for 1899 we find that the two great coal producing countries of the world (the English and American returns account for fully 60 per cent of the whole world s output during 1899) sent afloat in the period indicated cargoes of coal representing in the aggregate no less than 46,932 450 tons in weight—(F Seaton Snowdon in the Engineering Magazine for November

THE NEWS OF CRIPPLE CREEK

Alonzo Welty's Injuries at Last Proved Fatal.

COUNTY AND DISTRICT COURT

August Trorlicht's Case Against H P Relton and C C Mine and Supply Co Now Started

Cripple Creek Bureau
Colorado Springs Gazette

Cripple Creek Nov 26—Alonzo Welty one of Cripple Creek s most respected and progressive citizens died at 11 o clock this morning at his home on West Masonic avenue as a result of injuries received in a runaway on the evening of Oct 17 Mrs Alonzo Welty was injured at the same time sustaining a fracture of the skull and dying that evening at the Sisters hospital Two daughters Minnie aged 16, and Lucy aged 11 are now orphans It was generally thought that Mr Welty was recovering and his death came very unexpectedly to his many friends in the district Mr Welty was 45 years of age and was a pioneer in Colorado He had been a ranchman and cattle dealer for years At the time of his death he was the proprietor of one of the largest livery barns in the district Coming to Cripple Creek in the early days a poor man he by perseverance and square dealings accumulated a fortune of about $100 000 He was born in Ohio and came to Colorado with his parents about 30 years ago His father is still living at Colorado Springs Mr Welty was a member of Cripple Creek Lodge No 1 A O U W and Woodmen The funeral services will be held at the Odd Fellows hall Friday afternoon at 1 o clock The body will be taken to Colorado Springs for burial

Court News

August Trorlicht today brought suit in the district court against Henry P Relton and the Cripple Creek Mine and Supply Co In the complaint the plaintiff alleges that prior to April 1 1900 Herman P Relton owned a three fourths interest in the Mova Hardware company and that at the death of Herman P Relton Henry P Relton was appointed administrator that the plaintiff entered into an agreement to purchase F C Moya one half interest in the business and transfer the same for $200 per month Henry P Relton purchased the Moya stock for $12 451 09 The plaintiff s bond for $10 000 was waived by the defendant because no company would carry Trorlicht as he did not have full charge of the business The plaintiff further alleges that the defendant has made every effort to force him out of the business removing the books of the company out of the office stopping payments of the Bi Metallic bank on checks issued by him for the company and that the defendant accidentally secured his keys to the office and refuses to deliver them to him. Judge Johnson granted the plaintiff the temporary injunction asked for restraining Henry P Relton from disposing of the plaintiff s one half interest in the business and from interfering with the plaintiff s duties at the offices of the company Trorlicht prays that the injunction be made permanent at the final hearing of the case

The case of the People vs D M Sullivan has been dismissed by Judge Harris. The case grew out of the alleged bribing of the jury in the Carlton divorce case. The evidence indicated clearly that Alonzo Beeler Goodgame of Irving tried to obtain a bribe from Mr Sullivan The case was dismissed on technical grounds Dodge s father who was the principal witness having died

In County Court.

The case of the Cripple Creek Trust Investment company vs. M Glauber and Henry Bland was on trial today in the county court The plaintiff company alleges that in order to keep the Map Clothing Co from securing the premises the defendants, who are local clothing merchants rented the premises through the Trust company M Glauber it is stated is willing to pay half of the rent but the other defendant states that he did not enter the contract

Mattie Walker today was granted a divorce in the county court from Cornelius Walker upon the grounds of desertion

Mrs Sarah Benton aged 72 years died at her home 408 South A street yesterday of pneumonia The funeral services will be held from the White Undertaking parlors tomorrow afternoon at 2 o clock Rev Joseph will officiate

D K Hankins the Anaconda grocer commenced suit in the county court today against A A Sloan He sues to recover $23 75 and interest at 8 per cent since February 1898 alleged to be due for merchandise.

F J Campbell secretary of the Miners union filed a petition in the county court today asking that a conservator be appointed for Joseph McClelland who was injured in the Morning Glory shaft last April and who afterwards became insane McClelland has a $10 000 damage suit now pending in the district court against the Woods Investment company on account of the injury received

A marriage license was issued this morning to John S Davis of Cripple Creek and Miss Alice A Williams of Rockvale Colo

Thomas Pennington today brought suit in the county court against the town of Anaconda for $176 which he alleges is due him for services rendered as constable

Judge Seeds today allowed Mr and Mrs T J Tremaine to adopt Martha J Ritner aged 12 who is their grandchild The little one will in the future be known as Martha J Tremaine

A mining deed showing the transfer of a one-half interest in the Mollie McGuire lode and the right to mine the Mollie McGuire vein in the Favorite lode from E B Wall and O W Birmingham to W S Stratton for $8,000, was filed for record today

Silent Rowan and Young Forbes of Victor have been matched to fight 20 rounds before the Olympic Athletic club Friday night Beddy Coogan and Kid Ryan will meet in the preliminary

Henry B Clifford a member of the Consolidated Stock exchange of New York Sherwood Aldrich the well-known mining operator of Colorado Springs and Philip Argall of Denver the inventor of many improvements in the reduction of ores are registered at the National

John Anderson Injured

John Anderson a lessee operating a block on the Anaconda fell 80 feet from a stope in that property at 4 o clock this afternoon, sustaining a fracture of the collar bone and severe bruises. He was taken to the Sisters hospital

Snow commenced falling tonight and at 11 o clock was two inches deep.

BOULDER

Coroner s Jury Says Mr Bailey's Death Was Caused By Wound—Dr Gardiner s Death

Special to the Gazette

Boulder Nov 26—[illegible] cause of the death of the late N B Bailey the man who was shot at Eldora a week ago Sunday is still a question which remains unsettled A verdict has been brought in by the coroner s jury to the effect that blood poisoning was the cause and yet the testimony of the physicians who made the post mortem examination throws a pall of uncertainty over the whole affair Following is the sworn testimony of Dr Quigley There was an incised wound of pneumonia in the right lung the lung being more or less consolidated The condition of the arm however was sufficient to have caused death Another question which makes the case still more complicated is Would Bailey have died if an amputation had been effected? Dr Harrison who was first called to the case says that he strongly advised it at the time but that Bailey s brother prevented him from making any operation Both doctors are of the opinion that amputation would have saved the man s life leaving aside all consideration of pneumonia The jury after considerable discussion returned the following verdict Norman B Bailey came to his death in the town of Eldora county of Boulder on Thursday the 22nd day of November A D 1900 from the effects of a gunshot wound inflicted in his right arm Sunday November 18 1900 by some party or parties to this jury unknown

The students and professors at the state university are mourning the death of Dr John Gardiner who died at a late hour last night of consumption Dr Gardiner has held the chair of biology at the state university for the last twelve years and during that time has made friends with all with whom he has come in contact For the last two years his health has prevented him from taking an active part in his work and the news of his death therefore does not come as a surprise to many of his acquaintances The funeral will take place tomorrow afternoon

Miss Conde the national secretary of the W C T U made a final address this morning before all the ladies of the university She left this afternoon for the east

GOOD ROADS.

Washington Nov 26—W H Moore and fifteen other members of the committee appointed at the recent good roads congress called today on Secretary Wilson of the Agricultural department and urged that he recommend an appropriation of $10,000 for the roads inquiry bureau of that department. The purpose of the appropriation is the construction of sample roads experiments and the diffusion of information on the subject of road making and kindred matters

The secretary promised to second the efforts of the committee in question and to recommend an appropriation asked Tomorrow the committee will call on President McKinley

ADDITIONAL DETAILS

Of the Killing of the Indian Supposed to be Apache Kid

Salt Lake Nov 26—Details were received today of the killing of the supposed of Apache Kid, near Pacheco Mexico a few days ago. The killed comprised three Indians one of them supposed to be the notorious Apache Kid for whom the United States government has offered a reward of $5 000. The other dead are an Indian squaw with a papoose who fell in the fight, it not being known that the adult was a woman and the child was not seen till after the fight. The shooting was done by two men whom the Indians had robbed and who had followed the band but had decided to let the robbers go only the latter came forward in a trail that made the shooting a necessity The information comes in a letter written to President Snow and George Q Cannon written by Apostle Woodruff from Colonia Juarez under date of Nov 18

WEST VIRGINIA FLOOD

Guyandotte, W Va., Nov 26.—Continuous rain for the past 48 hours has produced unprecedented floods in the Guyandotte valley The river and its tributaries are overflowing their banks and are tearing away quantities of cross ties lumber and other property Some 9 000 logs have gone out taking with them the false works of the two new Guyandotte valley railroad bridges south of Barboursville The loss estimated at $20 000 to $25,000

The track of the Guyandotte valley railroad just completed to Salt Rock, a distance of 18 miles, has been almost ruined The river is rising above and still more damage is expected

ANOTHER FAKE STORY.

Pana, Ill Nov 26—The reported finding of bones of a human body in a well on a Brunoll farm proves to be false The story was brought to this city by two laborers who claimed to have been shucking corn in the vicinity The well has been unused since the finding of Jane Brunot s body

Will the North Carolina Plan Stand?

The fifteenth amendment, while it did not grant the elective franchise to any one or deny the right of the state to determine the qualifications of voters, has the effect of extending the privileges by the provision that the right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state or on account of race color or previous condition of servitude This is not a limitation upon the power of North Carolina to provide an educational qualification for its voters even though it should operate to disfranchise every citizen of color in the state and it is not for us to question the motives of a sovereign state while it confines itself to the limitations fixed by the Constitution

When however the state goes beyond the establishing of an educational or other qualification and expects from its operation those whose ancestors were permitted to vote at a time when the suffrage was confined to the white race with possibly a few free men of color it is encroaching upon the federal Constitution, and we have a right to question its conduct No man in a condition of servitude in the state of North Carolina was permitted to vote prior to 1867 to have been a freeman, was a condition precedent to the right to cast a ballot and to preserve this right to the ignorant descendants of these freedmen while denying the right to those whose ancestors were in a condition of servitude is denying the right of citizens of the United States to vote on account of a previous condition of servitude—(Judge John Woodward, in Leslie s Weekly

TO DEVELOP THE FORTS

The Proposal of France Regarding the Chinese Settlement.

MUCH FAVORABLE COMMENT

Military and Sanitary Necessity--Proposition to Prohibit Importation of Arms Also Commended.

Tien tsin China Oct. 12—The proposal of France contained in her reply to the German note regarding the Chinese settlement to level the fortifications from Peking to the sea and prohibit the importation of arms has attracted much favorable comment here in fact the proposition to destroy the fortifications in the north is simply voicing formally one which has been freely discussed by military men in this section They have openly advocated such steps as military precaution in the event that only a legation guard is left here

Naturally the leveling of the walls of Peking and Tien tsin and the destruction of the forts at the mouth of the rivers is not to be considered so long as the allies occupy this province but it seems to be the general belief that such a step would be necessary should the army of occupation withdraw The fortifications at Peking have been fully described in the Associated Press dispatches and their value from the military point of view as well as the moral effect they have on the Chinese is well understood

Similar at Tien-tsin

Here in Tien tsin the conditions are practically the same though on a smaller scale Around the native city is a brick wall some 30 feet in height faced with [illegible]-shed dirt of almost the consistency of adobe varying in thickness from 10 to 20 feet. Its few gates are now [illegible] and guarded by Chinese as will be recalled made hard fighting for the allies To the outside west this brick wall presents a solid front broken only by loop holes and embrasures near the top to the plains and marshes which encircle the city Outside are cluster groups of huts Some of the houses are built close to the brick wall the wall itself forming the rear partition and legal tenants of the pools stagnant and foul and [illegible] marshes, [illegible] by the [illegible] from the river which is [illegible] feet above the level of the city

AN ARMY [illegible]

An American [illegible] of high rank and experience did [illegible] when the civil war, and who has since [illegible] the fortifications of [illegible] has said to the correspondent of the Associated Press

These walls and outlying huts having hundreds of people among foul surroundings, should be leveled before the present occupation ends. It is both a military and sanitary necessity From all I can learn from European residents the Chinese place a value on these ancient but still efficient works far beyond their military value They regard them as a protection in event of further trouble and look upon the fact that they are still intact as evidence of the foreigners weakness

The military phase of the matter has also been discussed but in the present disturbed and unsettled conditions it has not been able to crystallize itself into action It has been proposed to use the debris from the walls to fill in the marshy pools and to reconstruct wide and straight thoroughfares in place of the present narrow tortuous Chinese alleys As conditions are now however there is no one to take the initiative The provisional government of the native city does not feel warranted in taking any steps particularly as the project contemplates a heavy expenditure of funds.

There are several large forts on the bank of the Pei ho river between Taku and Tien tsin there is one very strong work which did the most damage during the bombardment That they will eventually be destroyed is believed to be more than probable although the international aspect of such radical action has been taken into consideration by those who proposed the step The fine forts at Ta ku also must be disposed of and already the military men here are discussing minor phases which must enter into the settlement.

Importation of Arms.

The French proposal to prohibit the importation of arms has also been recommended China has been a rich field for the sale of arms and ammunition and it is impossible to even approximate the number of guns which have been sold here in the past 10 or 15 years In addition to these immense quantities of arms and ammunition have been manufactured in the government arsenal east of Tien tsin. The [illegible] is one of the largest and most complete military plants in the world and its machinery has been a matter of great interest to the officers of allied forces It is reported that the [illegible] occupy the yard and [illegible] of the machinery and [illegible] Port Arthur The [illegible] stated on authority [illegible] cannot be [illegible]

Military [illegible]

The [illegible] with the joint wall is held by the United States forces is a military [illegible] and at the [illegible] curiosity shop As relics and [illegible] the weapons it holds are [illegible] small arms though a large quantity of comparatively new pieces [illegible] there Hundreds of new [illegible] pull Mauser rifles are stored in the [illegible] rooms piled and almost [illegible] from lack of care Almost as many [illegible] cartridges were stored with any quantity of ammunition Apparently the [illegible] of the world have [illegible] and [illegible] by agents. One [illegible] with [illegible] old [illegible] double barrelled, [illegible] Springfield guns of [illegible] and part [illegible] There are old muskets of 1861 patterns Winchester [illegible] and [illegible] of other [illegible] antiquated single shot and [illegible] revolvers, two hundred swords, much like a corn knife, and jingals or wall gun guns by the hundred. [illegible] of the jingals are old muzzle loaders sixteen feet long and weighing [illegible] a hundred pounds these were found a few of comparatively modern make They are duplicates for the breech loading rifles in use of about the same [illegible] to one and carry a ball weighing [illegible] half to three quarters of a pound

Two handsome Nordenfelt machine gun field pieces found in one of the [illegible] lers have been put in order and will stand on the walls in front of the arsenal There is really little of much real value in the whole arsenal and it will be turned over to the provisional government of Tien tsin when its garrison of one company of the Fifteenth infantry under Captain James Maney is withdrawn in a few days A large number of rifles and carbines and other small weapons have been given the officers of the Americans and other forces as relics.

ALARMING RUMOR

Unconfirmed Report That Train With 200 People Fell Through Bridge.

Cincinnati Nov 26—A special to the Commercial Tribune from Charlestown W Va. says

It is reported here that a Chesapeake & Ohio train went through the Green Brier river bridge, which has been damaged by the prevailing floods.

It is supposed that [illegible] were [illegible] 200 people on the train and that all were lost.

All wires are down at and near the crossing of this river and it is impossible to get any sort of confirmation of the disaster Even the railway officials are unable to secure communication with points on either side of the river

Cincinnati Nov 26.—There has been great apprehension tonight over a report about a Chesapeake & Ohio passenger train going through the Green Brier river bridge near Hinton W Va. All through wires on that line are down and it is impossible to reach Green Brier river or any points near it

Messages have been sent to New York and elsewhere and—that place cannot be reached from either east or the west Many messages have been sent by those who have had friends on that road today as it was not known what train if any went through the bridge but no response to any message has been received, and messages are accepted only subject to delay

Charles Ryan assistant general passenger agent of the Chesapeake & Ohio railroad came here tonight and he discredits the story entirely Mr said there was a bad landslide near one of the Green Brier river bridges not far from White Sulphur Springs, and it has been compelled the road to [illegible] passengers during the day Owing to the high water in the river no attempt to transfer passengers tonight and two trains that left here today are being held over night at Alderson west of White Sulphur Springs are, it is quite likely that trains are also being held on the other side of White Sulphur Springs.

There are three bridges on this line over the Green Brier river and the reports do not indicate at which bridge the accident occurred but it is quite likely the reports were started because of the landslide near White Sulphur Springs and the fact that trains that were due both east and west of that point were not heard from on account of the wires being down. Trains have been arriving and departing in Cincinnati on time with the single exception of the eastern express, due this evening at 5 o'clock which did not arrive until 8 p m as it did not attempt the usual fast time It is said that the express due here at 8 o'clock tomorrow morning is still on the other side of Green Briere river

SENATOR DAVIS' DEATH EXPECTED AT ANY HOUR

St Paul Minn Nov 26—It now seems to be simply a question of hours until Senator Davis passes away the reports from his bedside this afternoon being that his strength was slowly ebbing His physicians do not anticipate dissolution immediately but practically admit that so far as any human agency is able to know death is certain The family have all along been buoyed up with a faint hope that the senator might have greater reserve strength and be able to baffle the disease but today they seemed to have at last abandoned even this faint hope and are awaiting the end. Last night showed a recurrence of the delirium of Friday night in fully as pronounced a form, and none of the family was able to secure rest during the night. Only three hours sleep was attempted by the patient and during the night and today he was conscious only at times as the day advanced it was [illegible] became more pronounced [illegible] to take much nourishment [illegible] was even difficulty in [illegible] necessary [illegible]

NEWS TOPICS FROM DENVER

Tramway Company Must Pay Street Railway Taxes

CAMPAIGN AGAINST INDIANS

Grand Junction Cavalry Troops Will Aid the Game Commissioner if Needed—The Crusade

Denver Bureau.
Colorado Springs Gazette

Denver Nov 26—Judge Palmer handed down a decision this morning in the famous Tramway case It was to the effect that the Tramway company is operating a street railway The county commissioners have always contended that the Tramway company operated a street railway and as such was subject to taxation by the county The company has claimed that they owned a railroad and were only subject to taxation by the state board of equalization The latter board returned a valuation much lower than that of the county commissioners Therefore the Tramway company want ed to pay taxes on their valuation With the decision to lay the county commissioners can collect back taxes for over four years The back taxes are $63,376 96. This together with the rate of interest as prescribed by law if applied will raise the sum total to practically $100 000 In his decision the judge draws two main conclusions First, that the plaintiff is a corporation whose status as a railroad company is not fixed by its articles of incorporation Second that the law as passed providing for the state board of equalization is not so framed as to give the board the power to assess street railways The court gave Attorney A M Stevenson until Thursday morning to decide whether he would take an appeal or abide by the decision of the court

That Indian "War"

At 10 o clock this morning General Overmyer wired Troop A cavalry at Grand Junction to be in readiness for an immediate call in case Game Commissioner Johnson needed assistance in driving back the Indians who are killing game in western Colorado At noon today Governor Thomas received a communication from the department of the interior at Washington stating that the department had sent its Indian agent entirely through western Colorado but he had been unable to find a single Indian off the reservation A report from Rifle Colo stated that Game Commissioner Johnson and his deputies had arrived there and would proceed to Meeker by stage today

Thieves entered the hardware store of Kent & Stutchfield at an early hour this morning and stole $200 worth of pocket knives A similar robbery occurred at the same place last October

John W Peterson a saloon keeper at 1074 Larimer street was found dead in his bed this morning Heart trouble caused his death

Contests were filed with the secretary of state today by the Democrats of Pueblo county claiming that the Republican representatives were elected as a result of a fraudulent letter sent by the Republicans to Pueblo and signed by Milton Smith advising the Democrats to vote the Bryan ticket The matter had been contemplated for some time Judge Riser of Pueblo is attorney for the contestant

The New Crusade

The indignation meeting held at Trinity church yesterday to arouse interest in the enforcement of the laws relative to gambling Sunday theaters open saloons and other vices has been the subject of conversation in all the down town resorts today The meeting of yesterday afternoon together with sermons of last night and leading editorials in this morning s papers have brought the matter very forcibly before the people All day today those in charge have been canvassing the city for signers to the petition and tonight it looks as though the 10 000 names guaranteed would be ready for presentation to the board by Wednesday night. Sentiment however is divided as to the best mode of procedure An opinion that is gaining ground is that a petition should be presented to Governor elect Orman praying him to appoint a police board that would be satisfactory to the moral element of Denver

Some people are disposed to say that the wide open methods were indorsed at the last election and why begin a *crusade now especially when the very people* or a part of them at least who are now so denunciatory in their remarks against the members of the present board voted to sustain them only three weeks ago It is further cited that the city is no more open now than it was previous to the election In all probability a second petition will be framed during the week addressed to Mr Orman praying him to make his appointments as far as possible subject to the approval of the Christian and moral elements of Denver But those in a position to know feel that all the appointive offices have been promised and no petition will cause those promises to be broken At any rate it is argued that if nothing direct comes of these meetings they will create a feeling against crime and vice that will cause the better element of Arapahoe county to attend the primaries of all parties before the next election and see to it that only such delegates are elected to the county conventions as are pledged to reform

Police Secrest Demented

Policeman Chas Secrest has become temporarily demented over the shooting of Henry Reed It will be remembered that Secrest killed Reed in self defense in a saloon fight some time ago and although he was completely relieved of all blame the affair has weighed so heavily on his mind that he has become demented

George Maloney, a baker living at Boulder had his clothes stolen from his room in this city last night The thief was accommodating however and left him a pair of worn out trousers and a coat that would cover him twice

The colored people of the city held a mass meeting at Zion s chapel last evening and condemned the Limon affair The opinions advanced covered practically all the facts that have been brought out at other meetings The most of the criticisms were directed at the governor and Sheriff Freeman

H W Semon has leased the Lyceum theater for the winter His company will play their opening engagement there Thursday night

Chas Jessup one of the victims of the Littleton wreck, died at St Joseph s hospital last night O E Hawkins the engineer who was injured is better and it is thought he will get well

GRAND JUNCTION

Fewer Beets But More Sugar This Year Than Last—Programme for Thanksgiving Day

Special to the Gazette

Grand Junction Colo Nov 26—The slicing of beets was finished at the factory of the Colorado Sugar Manufacturing company s plant in this city the last of the week, but the factory is still kept busy converting the raw material into sugar The finished product from this season s crop will be close o 8 000 sacks The beets this year contained a higher percentage of saccharine matter and have been brought to the factory more sugar was produced from the crop of 1900 than that of last year Those interested in the future welfare of the factory are now out working among the ranchmen with a view of getting them to plant more beets next season The scale of price for beets per ton has been raised and the indications are that fully 4 000 acres will be planted to beets in the Grand valley next season The ranchmen are realizing that this crop when properly taken care of is a money producer

The high school football team of this city will go to Fruita on Thanksgiving to play a game with the team at that place A large crowd of enthusiastic citizens will go with the local eleven to root for them

Rev D Light S Basle pastor of the First Congregational church of this city will preach the Union Thanksgiving sermon this year at the Methodist church Thursday forenoon at 11 o clock. All places of business will be closed during the hour of service

The ladies of the Presbyterian congregation have decided to give a concert at the church on Friday evening Nov 30 An excellent programme both musical and literary has been arranged for The proceeds go towards paying for a new carpet for the church

Notice of Suit Involving Title to Black Diamond Lode.

ELKS HAD A SOCIAL SESSION

Entertained 200 Invited Guests—Cases Before Justice Corbin—Short Line Grading

Victor Bureau
Colorado Springs Gazette

Victor Colo Nov 26—A lis pendens showing that the title of the Portland G M Co to the Black Diamond lode is questioned was filed in the county recorder s office today It is the case of Margaret Ahern Catherine Dougherty et al vs the Portland G M Co This action was commenced in the United States circuit court about two weeks ago The instrument filed in the recorder s office today is to notify the company and public that the suit is pending in the United States court This cloud in the title of the Portland company to the Black Diamond lode might effect the sale of the Portland property of which much talk has recently been made The suit in the United States circuit court grows out of the story that James Parker and Frank Daly had a bond and lease on the Black Diamond lode but Matthew Bull They contracted with Eugene Dougherty to work for them on the lode they agreeing to give him a one half interest in the bond and lease Dougherty was killed in the shaft of the property and shortly after Parker and Daly sold the Black Diamond to the Portland G M Co It is alleged that the Portland company knew of Parker and Clay s contract with Dougherty The Black Diamond lode is one of the valuable properties of the defendant company s property including about ten acres and containing the apexes of most of the veins in the entire property In the suit in the United States the plaintiff asks for one twelfth interest in the Black Diamond lode and accounting to about $2 000 000 worth of ore shipped from the lode

Mrs J A Swalm was today given judgment for $82 against Dr Thornburg by Justice Corbin This amount was claimed by the plaintiff for board furnished

The case of the people vs Sullivan Fihaze and Brian was tried before Justice Corbin today and the defendant found not guilty Attorney J W Huff was the complaining witness he alleging that the defendant secured his legal services under false pretenses

L F Coyle will have his hearing tomorrow morning at 10 o clock before Justice Corbin upon the charge of assault with intent to kill Thomas McDermott

The work of grading the approaches to the new C S and C C D I pot near the Strong mine is progressing rapidly and it is a question of but a short time before the grading into the city will be completed

A movement has been set on foot and it is said that it will be determinedly pushed to force the Red Light dance hall at first and if that cannot be accomplished that prominent spot It is contended that the dance hall referred to is located on the only trail leading into the city from the east and that the pupils of the high school are compelled to pass it going each day while going to and from school

The water superintendent s men today completed the laying of a water main on Second street between Portland and Spices avenues and the water was shut off to permit of connections being made

Thanksgiving

ON TURKEY DAY

OUR STORE WILL BE CLOSED AND OPEN WEDNESDAY EVENING.

LET US BE THANKFUL. There are many reasons why everybody should be thankful We will mention one or two things to be thankful for

THAT we are not worse off than we are—we might be
THAT we are still alive—some people aren't
THAT you or any of your family can get such good, serviceable and stylish Footwear here for so little money
THAT you can get new shoes or your money refunded should any of the Footwear you buy here prove unsatisfactory
THAT for the reasons already stated it will not be necessary for you to go barefooted this winter
THAT you read this ad and are in a position to profit by it
THAT we are in town **Now let's all be thankful.**

Frank Hamilton Killed a Man in Minneapolis

Frank H Hamilton who lived in this city for a number of years and is quite well known here, is in serious trouble in Minneapolis, Minn where he has held a position on one of the local papers for some time He is charged with the murder of Leonard Day, a well-known young millionaire society man of Minneapolis at the West hotel early Sunday morning

The tragedy is said to be the outcome of a quarrel over a woman It took place in the billiard room of the hotel, at about 2 o clock in the morning Fred George and Day were playing pool with C S Force another young man when Hamilton entered with a few of his friends He and Day at once began to quarrel but were separated by their friends The trouble began again in a few minutes however, and a fight ensued in which George received a severe cut in the right hand and Day was stretched on the floor mortally wounded Hamilton stooped over him and offered to aid him but it was too late and in five minutes he was dead. All of the participants in the affair hastily departed but were later found by the police who took the matter in charge Hamilton was not placed under arrest until the coroner's jury brought in a verdict charging him with the murder although he was watched closely by detectives While no one saw the blow struck that killed day, all of the witnesses at the examination agreed that Hamilton was the only man with whom Day was fighting

Frank H Hamilton lived in this city up to two years ago when he went to Denver There he became connected with the Denver Times. Several months ago he went to Minneapolis where he held the position of sporting editor on one of the daily papers. He was very well known here having boarded at 211 North Cascade while he was in the city

ARE PREPARING FOR THE MINERS

College Football Team Putting In Hard Practice.

GOLDEN RUNS AN EXCURSION

Special Train Will Bring the Miners and Their Friends to Colorado Springs for the Big Thanksgiving Day Game on Washburn Field—Sale of Seats is Active

Colorado College has reached the home stretch in football for this season Every nerve is now being strained to put the football warriors in perfect condition individually and as a team for the game of Thursday with the School of Mines

The high school has brought the interscholastic championship to Colorado Springs and the intercollegiate championship is already here The effort of the college team on Thursday will be to retain the honors for Colorado Springs

Coach Lewing assisted by Lim re Floyd gave the men some vigorous line play practice yesterday afternoon The scrub and the varsity team were lined up against each other and for half an hour they bucked and charged in a manner that has not been seen on Washburn field for a long time The backs were allowed to practice catching punts while the line men were charging and then the whole team put in some hard practice at getting down the field under kicks and tackling the punter Jenson tried several field goals and showed good condition

Abernathey and Bardwell have been secured to act as referee and umpire

Reports from Manager Moody of the School of Mines team are to the effect that the Golden expects to win the game The Miners have a substitute for every player of the team and the substitutes have been kept constantly at work and are regarded as exceedingly reliable material to fall back upon The speed of the men is what the Golden enthusiasts are looking upon to defeat Colorado College it being the intention of the Miners to play two full teams if necessary, in order to maintain a terrific pace through out the game They hope to tire out the college in the first half and do their scoring in the second

There will be a special train to bring the Golden rooters to Colorado Springs It and the team will arrive Thursday morning

The senior class of the School of Mines will arrive here on Wednesday and will make an inspection of the Colorado City reduction works

Tickets for the football game are on sale at Strange Lowe and Jones and Wellington's General admission tickets are selling for 50 cents until Thursday on which day they will be 75 cents A charge of 15 cents extra for grand stand seats is made Grand stand seats are going rapidly already and persons desiring to secure them should do so at once

THAT JUDGESHIP

The county judgeship is still unsettled but indications point to a possible settlement this morning The balloting yesterday showed no new developments but a conference between Messrs Doran and Sinton late in the afternoon is taken as an indication that a compromise is being effected

When the commissioners adjourned yesterday evening Mr Doran started down the street but Mr Sinton ran out and called to him and he came back The two Fusion commissioners went into the vault and held a long conference and when it was over Mr Doran came out hurriedly and with a satisfied look on his face He left the building in a hurry and those who saw him go thought he was going to see somebody else It is believed that a compromise has been arranged conditionally but the conditions or the terms of the compromise are not even within the range of guessing

Yesterday complying with the law in the case the clerk of the county court Mr D A Thomas dismissed the jury for one week and no court will be held this week even if a judge is appointed

Amusements

IT WAS FUNNY

The musical farce Maloney's Wedding was presented at the opera house last night The audience was not as large as some which have filled that building this season Not by considerable The play was a farce It was presented by a farce company which was admirably adapted to the performance In many respects the company was a strong one in fact one of the strongest ever seen here The hero was strong the heroine was strong and in fact all the leading characters were strong It required strong people to go through such a performance as it was a show calculated to wear out an ordinary person

It was a musical farce It might also be said that the music was a farce The prima donna sang several times and received entnusiastic if not distinguishing applause She responded to encores each time It was too bad that such a strong musical programme should have come just before tonight's song recital Those who enjoyed the music last night will not feel like attending the recital tonight.

There were jokes and the audience laughed and loud There was dancing and the audience applauded The specialty features were many and varied and the show catered to a mixed crowd Altogether it was one of the best performances of the kind given in Colorado Springs It is the only one of the kind ever seen here

A HINDOO HOODOO

This clever comedy and New York success will be seen at the Opera house Thursday evening

The most difficult of presentation of all dramatic forms is the comedy The author of a drama may first excite your interest and sympathy with a tender love scene a few minutes later he may chill your blood with horror as the beautiful girl in whom you are interested walks across a yawning chasm on a narrow plank that the villain has so weakened that you know it will break down when she reaches the middle of it a few moments later the comedian appears and forthwith you are content I with laughter then the villain forecloses the mortgage and as the old man and his lovely daughter go slowly forth into the blinding snowstorm alone (as all the world an unbidden tear trickles softly) down

Tis not so with the comedy The author must make you laugh during the first act you must howl with unadulterated glee during the second act and the third act must be one long continued scream of laughter It is for this reason that even the best of comedies presented by even mediocre players is pronounced dull and uninteresting by the public. That Whiting and Wills the managers of A Hindoo Hoodoo fully realize the force of the foregoing is readily seen by a glance at the personnel of their organization The entire New York cast is presented intact

A TRIP TO CHINATOWN.

Next Saturday evening at the Opera house Hoyt's rollicking laugh propeller A Trip to Chinatown, which is famed the world over by reason of its phenomenal runs not only in this country but in London France and Australia will be presented almost in an entirely new form embellished and polished up to date with a cast that for strength and versatility surpasses all others seen in a Hoyt an production

The title and the foundation of the story or plot is said to be about all that remains of the principal production in the new A Trip to Chinatown every thing is new the specialties, the situations the scenery stage accessories and the costuming

That the new A Trip to Chinatown will be welcomed by a large and fashionable audience is indicated by the unusual demand for seats in advance.

Symphony Orchestra.

The next attraction in the Lyceum course will be the Boston Ladies Symphony orchestra assisted by Mr Carl Crance the eminent bassoo of New York This orchestra gave one of the most delightful concerts last year that has ever been given in this city They appeared last year in 17 different states and Canada including matinee and evening they gave 132 performances between Oct 1 and April 18 This extended tour is without a parallel in the history of a Lyceum attraction the size of the Symphony orchestra Reserved seats are going rapidly and before Friday night there will not be a seat left in the house —Reserved seats on sale at Lauterman's jewelry store 121 N. Tejon street

If your are suffering from drowsiness in the day time, irritability of temper sleepless nights, general debility headache, and general want of tone of the system use HERBINE. You will get relief and finally a cure Price 50 cts Hefley Arcularius Drug Co., 21 South Tejon street,

KNOWING HOW.

Age and Experience Linked With Skill, Science, and Responsibility fix a New Hope for Suffering Humanity Dr Ellison's Successful Treatment— for Consumption, Asthma Bronchitis, Catarrh, and Other Chronic Diseases Make People Well

Colorado Springs and vicinity not only excels in scenic grandeur but are keeping in the front ranks in the steady and rapid march of all scientific achievements In music art education and medical triumphs she stands without a peer Dr Ellison has made Colorado Springs famous in the department of medical science known as the specialty treatment of chronic diseases in the curing of so many chronic maladies He claims if one disease is curable others should be and if a physician only knows how to relieve a portion of the ills which afflict mankind under certain circumstances then he has been derelict and is frittering away precious time on things of minor importance regarding the true mission of the doctor of medicine To know how to cure a few chronic diseases is better than to understand the pathology of a hundred and this is just what Dr Ellison has devoted years of his professional time to accomplish He does not scatter his forces over the entire field of medicine but devotes his entire professional time to the special treatment of consumption asthma bronchitis catarrh and chronic diseases of men women and children Multitudreds of consumptives have been treated by Dr Ellison's sulphur treatment with only three deaths. Consultation and examination free at the office if you can not come to his office write This treatment can be used at your home Office 24 North Tejon street (over Craigue's grocery store) Office hours 9 to 12 in the forenoon from 2 to 5 in the afternoon and from 7 to 8 in the evening Sundays from 2 to 4.

DR ELLISON'S SULPHUR COUGH CURE.

During the doctor's residence here people have often called to secure a cough medicine Of late months these requests have been so numerous that he has decided to supply all who call at the office Dr Ellison's Sulphur Cough Cure for 50 cents a bottle This remedy has long been used by the doctor in his practice for the cough incident to consumption asthma bronchitis coughs colds hoarseness sore throat whooping cough influenza etc It will not dry up a cough or cold but loosens it aiding nature in throwing off the poisonous mucus produced from diseased lungs or a cold in, opening the secretions healing the membrane and restoring nature to a healthy condition It is prompt in its action and can be depended upon as a remedy of unusual merit and about all it has in it There is no morphine opium or other injurious drug in the composition of this Sulphur Cough Cure In croup and whooping cough it liquifies the tough, tenacious mucus and aids its expulsion from the system No family should be without it

SPECIAL NOTICE—A 50 cent bottle contains three times the quantity of any other 25 cent cough medicine on the market and a half more than any 50 cent bottle. Office 24 South Tejon street (over Craigue's grocery store)

REAL ESTATE CO. TO HANDLE TRACT

John M Jackson the well known real estate man who made the purchase of acreage land near Colorado City reported in this paper Sunday was active for a company Yesterday the Rustic Home Investment company was organized for the purpose of disposing of the property and building it up The gentlemen are all residents of Colorado City excepting Mr Jackson N B Hames is the president of the company and Mr Jackson the secretary Others interested are W H Epperson, C D Taylor, F J Simmons. Mr Jackson will be the agent and the company will have offices in Colorado City It has not yet been decided how the land will be sold but they think of a lottery plan in which people will draw for lots after the property has been sold up That is the way the La Veigne tract was sold some years ago.

This tract of land is adjoining Colorado City and has on it the red frame house with a fish pond in front. It is proposed to plat it in lots 50x120 feet but it may not be made an addition to either this city or Colorado City The company is capitalized for $25 000 It proposes to make some extensive improvements

REPLEVIN HORSES

An interesting replevin suit developed yesterday in Justice Ruby's court Some time since C M Goggin secured a judgment for over $100 against John Frasier a ranchman living near Sunber, and The Robb Flour and Feed company got a judgment for about $60 Saturday a constable went out there and attached 25 head of horses None of the Frazier family were at home at the time so the horses were secured and driven into the city. It turns that Mrs Lynch a sister of Frasier claims that the stock belongs to her and not to the brother They did not know that the stock was taken on an execution and the district attorney filed a warrant for the arrest of John Due and Richard Roe charging them with stealing the horses. That was withdrawn after the fact that the judgment was outstanding was known. Then Mrs Lynch began an action in replevin The stock is held at the Brown corral in this city

HAIR NATURALLY ABUNDANT

when it is Free of Dandruff, It Grows Luxuriantly

Hair preparations and dandruff cures as a rule are sticky or irritating affairs that do no earthly good Hair when not diseased grows naturally luxuriantly Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ The only way to cure dandruff is to kill the germ, and so far, the only hair preparation that will positively destroy that germ is Newbro's Herpicide—Absolutely harmless free from grease sediment dye matter or dangerous drugs. It always itching instantly makes hair glossy and soft as silk. Destroy the cause you remove the effect—dandruff

THE KNIGHT CAMPBELL MUSIC COMPANY

Grant an Extension of Time in Their Special Sale Because of the Recent Snow and Wind Storms.

Our special sale began on Monday November 19 and it will be recalled that on the following Tuesday we had the biggest snow storm of the season and this was followed by that awful wind storm on Wednesday which in addition to the havoc played with almost every residence in the city rendered the operation of the street cars an impossible thing for many days and since the majority of us rely upon the street cars for transportation it is apparent that many have been unable to take advantage of the piano opportunities offered Because of the unfavorable elements we have received many requests to grant an extension of time in our sale and in compliance with these we shall continue our price cutting until Saturday night of this week

It is seldom that you meet a satisfied person We are satisfied We are satisfied with our sale in every particular until there is a person who has not bought a piano because of any lack of publicity on our part. We have meant that announcements regarding this our third special sale should come to the attention of every person in this whole city We have meant that no person should be in the dark as regards our prices the lowest we have ever made as regards our terms—pay what you can pay as you can as regards our pianos positively the very leading makes of the world

For the benefit of those who have been unable because of the storms to visit our store and for the benefit of any others who may not yet have bought a piano because of any doubt whatsoever we repeat that Saturday will positively mark the close of this sale There will be no further extensions of time

Our stock had become somewhat depleted but we have received new shipments and will therefore be able to show exactly the same line of pianos in the same styles and same woods during these closing days that were upon our floors during the earlier part of the sale and the prices are identical, terms to suit you so long as they are within the realms of reason and we are satisfied that you are expecting nothing unreasonable

We sell no cheap piano no piano not thoroughly good Our written guarantee with every one

Brand new pianos you make your own selection Steinway A B Chase Everett Fischer Kimball Smith & Barnes Ludwig Franklin Stieff Hinze Schirmer Willard Hallet & Co and here are only some of the prices $187 $192 $217 $242 $276 $342 $398 $421 etc etc

We think the best possible argument is the almost phenomenal success of our sale It speaks volumes for the Knight Campbell Music Co. It is certainly the greatest record which a dealer could have It certainly is to the faith which the people have in our business methods and the match excellence of the pianos which we carry

Do you want a piano? Do you want to save a good $100 in the purchase of a piano and yet have the best? If so there will positively be no further extension of time Store will be open until 10 o'clock every evening this week.

ANOTHER GIFT TO THE COLLEGE.

THE announcement of another donation of $50 000 to Colorado College from Dr Pearsons is especially timely and most gratifying to all the friends of the college

It is an indication that the needs of the college and its value in the cause of education are appreciated by one who is probably better qualified to judge such things than any other man in the country

It is an especial compliment to the management of the college that Dr Pearsons latest gift was influenced by the excellent showing made by the college in its business affairs Men who give money for educational purposes like to know that it will be used not wasted and the good sense and business judgment of president and trustees of Colorado College are certainly a strong element of *strength in their appeals for help* in carrying on their work

Dr Pearsons gift is particularly timely because the college needs the money In spite of the rapid increase in the equipment the demands upon its facilities are increasing even more rapidly The college even now needs larger dormitories and the general endowment fund, to which this new gift will be added might be doubled, and every dollar of its income used with advantage

Dr. Pearsons in selecting this college as the recipient of numerous gifts, is setting an example that ought to be followed by many of our own rich men

A LESSON FROM CHINA.

THERE is a class of people in this country who are strenuously opposed to the war spirit. It is undeniable that they have some very strong arguments *in their favor and they make the best of them* War is denounced as wholesale murder as unchristian and savage and the horrors of war are set forth in glowing language as an argument against any policy that cannot be accomplished by peaceful methods

For such people there is or ought to be a lesson in the recent events in China, for China is a nation in which the aversion to the war spirit the cultivation of the arts of peace and the dislike of any cause of quarrel with any other nation has been carried to an extreme For hundreds of years China has been engaged in no foreign wars its domestic disturbances have been infrequent, and its superabundance of population has been restricted only by pestilence famine flood and the prevalent custom of infanticide

The outcome of this policy has been the overthrow of its government by a force of Europeans as inconsiderable in numbers comparatively as the band with which Cortez conquered Mexico or Pizzarro overthrew the empire of the Incas The policy of the anti-imperialists in our own country would if carried to its legitimate outcome reduce us to the level of China and make us the prey of the first of the grasping monarchies that cared to undertake our conquest.

But there is another part of this matter that deserves consideration The United States the most enlightened humane and civilized of nations is too apt to regard its neighbors on the planet as equal to itself in these respects It is with surprise, even more than with horror, that we have learned of the atrocities that have characterized the invasion of Chinese territory by the Russians, the cold blooded disregard of human life and the spirit of revenge displayed by the Germans and the mercenary spirit in which the British soldiers have robbed the natives of China under official sanction These things are not in accordance with our ideas of civilized warfare, and the proof of our sincerity is to found in the fact that our soldiers *have taken no part* in the massacres in the cold demand for revenge, or in the looting of Chinese houses temples and shops to supply the auction room for the benefit of enlisted men and officers of our regiments

But it is worth our while to remember that these soldiers whose actions we condemn as not in accord with the spirit of advanced civilization, are the ones who would march across our territories and sack our cities if an unfortunate *international quarrel should reveal* our inability to protect our own interests by force of arms

American soldiers marched to the conquest of the southern states with only rarely occasional barbarities and the southern troops were as considerate of northern non-combatants as the fortunes of war would permit. In Cuba and the Philippines as well as in China we have had little cause to blush for Americans even when roused by the passion of battle But it was not so when the German hosts swept through France thirty years ago, and it would not have been so if the Spanish armies had accomplished the conquest of any part of our territory

The United States is the richest nation in the world today but we hold our wealth by the strength of our military power and not by any regard on the part of the nations of the earth for humanity right or civilization To weaken our defense is to invite conquest not to avert it, and if war comes the penalty of defeat will rest with our victors and not with our own notions of what is just and humane

Recent events in China should make us more cautious than ever of *putting our faith* in the disposition of foreign governments and more resolved than ever to maintain our ability at all times to protect our national interest from any despoiler

TWO NOTABLE SERMONS.

AMONG the sermons preached in this city on Sunday last were two worthy of special notice

One of these 'Lynch Law and Capital Punishment,' by Rev Wm H. Fish, Jr, will be printed in full in the Gazette in the near future

The other, on 'Reverence for Justice and Law,' by James B Gregg, D D, was printed in yesterday's Gazette, though by an oversight the name of the author was omitted

THE NAVY IN 1900.

THE annual report of the secretary of the navy is at hand and presents an interesting summary of the operations of the department for the year.

As might be expected the work of the Asiatic station has been especially important and occupies the main part of the report The operations in the Philippines and the heroic services of the marines in the siege of Peking and the expedition for its relief are told with official brevity but in a way that will add to the satisfaction which every American feels in the record of our gallant representatives in those lands It is significant of the importance of the operations in Asia that no American war vessel has been permanently assigned to the European station in the past year.

Secretary Long calls especial attention to the need for more officers and men in the navy, and declares that with the completion of the new vessels there will be needed not less than 5,000 more men in the enlisted force

The report shows that in the past year there have been added to the effective force three battleships, Alabama Kearsarge and Kentucky, one protected cruiser built in England Albany, and two torpedo boats Fifty-three vessels are in course of construction, including battleships, cruisers torpedo boats and seven submarine boats

The progress of the ordnance department in the manufacture of guns and smokeless powder is set forth, the results in both cases being extremely satisfactory

An interesting paragraph in the report relates to the survey for a trans Pacific cable The survey developed the fact that an almost level plane of *soft mud*, at a general depth of 2 700 fathoms, extends from Honolulu to the Midway Islands, affording an excellent route for a submarine telegraph cable, while between the Midway Islands and Guam another level plane from 3 100 to 3 200 fathoms deep is found but is broken at intervals by reefs and occasionally by submarine mountain ranges The first thousand miles from the Midway islands, with the exception of one isolated peak is substantially level Among the interesting discoveries made in the course of this survey was that of an ocean abyss, the deepest known, which was found to the eastward of the islands of the Ladrone group, and near the parallel of Guam Here were made the deepest ocean soundings ever recorded the greatest depth reached being 5,269 fathoms, or 31 feet less than six statute miles

Under the head of the increase of the navy the secretary declares that he has been influenced by the possibilities of construction, rather than by the needs of consistent and scientific naval development A large number of vessels are now under construction or being planned and the department limits its requests to two battleships, two armored cruisers six gunboats, two destroyers, three torpedo boats, one transport and two training ships

In conclusion the secretary urges the *establishment* of rewards for special service in accordance with the provisions of a bill now before congress This authorizes the bestowal of honor medals 'courage medals' or 'service medals' Commenting upon this the report says

This bill provides a system of appropriate, inexpensive and satisfactory rewards capable of prompt bestowal, doing justice to special merit and working no injustice to anybody Such medals could be worn on all occasions of ceremony during the life of the recipient and transmitted as a prized heirloom to his descendants A feature of this system, which particularly commends it is the fact that it is applicable to non-commissioned officers enlisted men and privates as well as to commissioned officers The present system provides no satisfactory method of rewarding enlisted men and marines

The navy of the United States has always been a matter of interest and a source of pride to our people its record in the war with Spain was in keeping with its earlier glorious history and the whole country will repeat with pleasure the words with which Secretary Long closes his report 'There is no finer type of the public servant trained to high sense of his official obligations, and no hand in which the honor of his country and the rights of its citizens are safer, than are to be found in the navy of the United States'

THE PUERTO RICAN TEST CASE.

THE decision of the supreme court in the Puerto Rican tariff case has been postponed until December 17 This is the case involving the *point of* whether the Constitution follows the flag and it is undoubtedly one of the most important that has been before the court for years

If the court decides that the Constitution does not extend over new territories acquired by authority of congress the opinion of the McKinley administration will be confirmed, and there will be no departure from present conditions New territory will be governed by executive authority until congress provides some other form of government and the authority of congress will be supreme until the territory is formally received as an integral part of the United States under the Constitution

If, however, the court *should decide* that the Constitution has already been extended over the islands of Puerto Rico and the Philippines it will involve some serious and disagreeable complications The most important of these is likely to be the one arising from the inconsistency of our tariff laws and the treaty obligations which we are under as regards those islands If imports are admitted to Puerto Rico according to our peace treaty with Spain, duties cannot be uniform *throughout the United States* as they are required to be by the Constitution

Another difficulty which we believe to be more fanciful than real will arise from the right of domicile secured by the Constitution If American citizens are given the *right to move* to any part of the country for residence, what is to prevent we are asked, ten millions of Filipinos coming to San Francisco The answer is undoubtedly that very few of the ten millions would care to do so and of those who did the great majority would probably return to Manila or Joen as they could get back The fear of Filipino emigration is not one that need alarm anyone.

The Gazette has already given its reasons for believing that the *Constitution has not* been extended to Puerto Rico and the Philippines but the question is an open one, in deciding it the supreme court will exert a strong influence upon the future policy of the government If the Constitution follows the flag we may not be able to rid ourselves of the Philippines, but it is practically certain that we shall acquire no more possessions unsuitable for statehood in a near future

THANKSGIVING AND CHARITY.

THERE are few cities in the country where every family may enjoy a good Thanksgiving dinner. But such is and has been the case in Colorado Springs

This year the Associated Charities are giving special attention to this matter, with the purpose of seeing that no one is overlooked and that no one is supplied with more than they really need

The Associated Charities are glad to receive contributions for Thanksgiving charity or when desired they will furnish names of deserving persons so that gifts may be made direct

The announcement that the cabinet will continue with few changes after next March is a cruel blow to the "statesmen." The number of people who will not be "mentioned for a cabinet position" this year is sufficient to fill the land with woe

Gazette Gayeties.

RAH-RAH-RAH, YALE!

Three years o bloomin' failure an hard luck,
Three years o' buckin' lines that wouldn't break,
Three years o steady tryin up o' pluck,
Three-years-o nervy-right-for Yale's sake.
Then its "Rah-rah-rah! Come follow me!
An its "Rah rah-Yale! Now at 'em lads!'
For we've got 'em on the run
An we'll do as we have done,
So follow me, follow me on!"

We've gone against the Crimson lads this year,
We've seen 'em knock our center gal lee west
They've smashed our interference for a cry,
They've gone around our ends without a rest,
Then its "Down the field! Now follow me!"
An its "Through their line an pound 'em lads'
For the beggars must give way
To the charging Blue today,
'So follow me follow me on!'

They've peered us an they've sneered at us like sin,
They've left our banners trailing in the dirt
They've never missed a chance to rub it in,
They didn't care a damn how much it hurt,
So its "Hit the line an follow me!'
An its "Tackles back an through 'em lads!'
For we'll whip 'em where we fell
To a bloomin' fare ye well!'
So follow me, follow me on

We've used up twenty Crimson lads this day,
We've cleared the azure banner of its stain,
We've mowed 'em down like bloomin wisps o hay,
We've sent 'em home to nurse defeat an pain
So its "Rah rah rah Yale! Follow me
An its "Raise a glass an toast 'em lads!'
For the deed was nobly done,
An the victory is won,
So follow me follow me home!"

At the Game

The Wife John, why do they call it a gridiron?

In the Museum

The Snake Charmer and the Tattooed Man have quarrelled—

"What's the trouble"

He remarked that she was better than the Keeley cure, and she retorted that he was the original picture trust and they're not on speaking terms any more"

A Night in the Desert.

(Salt Lake Tribune)

Around him thrones totter and dynasties dissolve
The soil he guards alone escapes the earthquake

—Richelieu

Under Richelieu France was soaring with prosperity, In arts and arms and commerce she was leading the world, because of the policies of her great cardinal, soldier and statesman while all around her the nations were so disturbed with internal dissensions, foreign wars, economical industrial and commercial relations that the people were kept in a state of mingled apprehension and despair

There has been a marvelous change in the condition of affairs in this country during the past four years, and the Republicans of Utah comprehending and appreciating the change have said in effect that, the soil which the Republican party guards alone escapes the earthquake

But east, west, north and south in Colorado, Nevada, Idaho and Arizona, the people have declared that they are not satisfied that they want a change and a return to the beautiful conditions that prevailed when the Republican party took up the wreck left by Mr. Cleveland, repaired the hull put in new boilers overhauled the engines and, freighting the old ship of state for a long voyage, proceeded to sea ready for storms and calms and determined to make port or schedule time and without damage to the goods We think our neighbors have made a mistake We do not impugn their motives but do deplore their judgement We are afraid that Arizona is to have another long wait for statehood though she has the wealth and population to entitle her to all the privileges that any sovereign state in the Union possesses

We think the men of Idaho made a fearful mistake They have closed the door against the confidence of the money centers of the nation they have done something which will turn back every immigrant that war contemplating making a home within her borders We think Colorado has made a mistake because she has killed the influence of her representatives in Washington

Colorado is a great state and heretofore has commanded much attention in the nation's capital She will have to take a back seat for at least two years Her people will probably answer that they made a fight for principle We predict that every principle on which they carried their state last week will be practically repudiated within the next two years

But Utah is solid All her skies are filled with sunshine and all her prospects are bright

OPEN PARLIAMENT

Express Delivery.

To the Editor of the Gazette

Will not the Gazette use its influence to awaken the various express companies in this town to a realization of the fact that a growing, and already large community have their homes above the 1700 block north beyond which the companies do not deliver express packages The writer happens to reside one block north of that limit and has again and again experienced the disadvantage of having a card sent to him requesting him to please call at the express office to get a package which the company is unwilling to deliver so far away! notwithstanding their contract supposes delivery to the address given

There would be a plausible excuse for not delivering an occasional parcel to some solitary ranch miles out upon the plains, but to deal towards a thickly settled portion of the community as if it were a distant and inaccessible province is not only unfair, but is not in keeping with the progressive spirit of Colorado Springs. G B P.

FIRST NATIONAL BANK BLOCK

Backed His Words With Handsome Gift

I think that I have discovered the best way in the world to give away money.

That was the coolest expression that anybody ever used in the circumstances. It was last evening in the rotunda of the Alta Vista hotel and Dr D K Tenrons of Chicago was the latter. Coming from the ordinary individual the expression would have meant little but that one from a man who had just given $50 000 to Colorado College that morning and stands pledged to give away $750 000 in the next four weeks.

At Colorado College yesterday morning Dr Pearsons appeared at chapel and made the student an address. He told them principally what he thinks of the institution and its management. The words were brief, as he said that he is going to give President Slocum $50 000 in the first day of January. It is not a new gift exactly but is contingent gift made certain. Some time ago he told Dr Slocum that when the new science building is completed he would give the college another $50 000. Yesterday he said that he was not going to wait for that but will hand over the money the first day of the year to be placed in the general endowment fund. Naturally the students gave the doctor a cheer that must have warmed his old heart.

Dr Pearsons gave the college $50 000 once before for the endowment fund. Two weeks ago he came out here for a rest and he has been making close examination of the school. At first he was a bit reticent in speaking of the school but he has been getting more and more enthusiastic every day and last night he was just bubbling over with it.

Why, said he, it is the finest institution in this country. I have been all over it from the kitchen to the laboratories and into the rooms. Everything runs like clockwork. I have examined the accounts and the securities and everything is in shape. They have a record-of-every-cent that has been given the school and it is safely in safes. That is what I like for I can see given to a number of men that have spent their endowment in current expenses. I do not like that sort of thing. Everything at Colorado college is in shipshape. I will just say this to you Mr Reporter. I have not yet finished with this school. Perhaps I may never give it any more money myself but I am going back east to do some talking for it. I am going to tell them what an institution there is out here. Lots of people consult me at times giving away money. Its the most enthusiastic school I ever saw. Why even the cook at the dormitory thinks it is the best school that ever happened and during the big storm last week the engineer laid out on the roof trying to build it down and it was the property. The boys and girls look so poor and healthy. I have seen practically all. It makes me feel like one of them. I like it. I tell you I like it.

With this gift the endowment of the school will be $3,000 all of it will invested. It brings in a very nice income for the maintenance of the institution. Dr Pearsons has a grand clearing up of outstanding promises on the first day of the coming year and century. He has pledges out to a number of $ 000 and it he has to meet them all it will take $750 000. He has the money ready and if the schools are ready with their money he will pay it out to them. He thinks there are only two that will fail and the local conditions surrounding them are such that he thinks he will extend their time a year or more. Dr Pearsons bought a great tract of timber land in Michigan in 1870 and it made him very wealthy. He has given away $2 500 000 to colleges of the land and is now disposing of the rest of his estate. He settled a number of large estates for others in Chicago and says that he has seen the futility of making wills and trying to hold onto wealth after one gets old. He does not propose that anybody shall fight over his money after he is gone and when he dies his estate will all be settled up.

It is his hobby and his greatest pleasure to do these things but it takes the breath away from a poor reporter who is doing the magnanimous thing when he gives a beggar a quarter to hear a man who has made a study of money giving say that he has found the best way to do it.

The doctor is perfectly confident, to give his own money away. He does not need any assistance, but he has had plenty of advice on the subject all the same. A lot of people have tried to stand on him since he came. A good many have been successful. Some need to be carried but it does not do for a good to call for the doctor has been a target for that sort of thing for a great many years.

Francis is Probably Dead in The Hills

The body of Francis Edwards formerly employed by the city on the work at Strickler tunnel is probably buried in the snow up on the side of a mountain somewhere. He has been missing for nearly a month now and there are very grave reasons to believe that he is dead.

Edwards was an old man of about 60 years of age has worked around the city for some time. For several months he has been employed on the work at Strickler tunnel but when that work was nearing completion about a month ago the men were nearly all discharged. Edwards was retained and with others was employed in keeping watch at the tunnel. About the first of the present month he started to walk down to this city. He was complaining that his heart troubled him and it was thought best that he would come down lower. That is the last anybody knows of him. The snow is very deep and it has been impossible to communicate with the tunnel regularly and it was not known here for some time that Edwards had started for the city. He has two city warrants at the city treasurer's office for the work he did in September and October as he had not been down to draw the wages. He has never called for these. Edwards had his effects at the house of a friend in this city. Yesterday the friend called at the city hall to make inquiries about Edwards and says that he has not been and heard nothing from him.

The indications are very strong that the old man died suddenly from heart disease while trying to come down the mountain alone. There have been heavy snows since then and the body is probably covered over. It may be recovered next spring and perhaps years from now the bones will be found and left unidentified. Not much could be learned regarding him but so far as known he has no relatives here.

G. M. Jacobs Will Probably be the Agent

It is stated on pretty good authority that the successor of Mr H M Pickinger as general agent of the Colorado road in this city is to be G M Jacobs. The appointment has not yet been announced but it seems quite certain that such is to be the fact. Mr Jacobs is now the general agent of the road at Cripple Creek. He is a very genial gentleman and has done good work for his company at the camp. Mr Pickinger expects to act away from here in a day or two. He will be with the Fort Scott road and will have headquarters in Memphis Tenn. Mr Pickinger has made many friends here in the year that he has been with the Colorado road as its agent here.

TREASURY DEPARTMENT

Supervising Architect Reports 327 Complete Buildings

Washington Nov 26—The annual report of Knox Taylor the supervising architect of the treasury shows that one year ago the office had under its control 319 completed public buildings inclusive of marine hospitals and quarantine stations. During the last year eight completed buildings have been added to the list.

During the past year says the report, the competitive system authorized by the act approved Feb 20 1893, has had practical test in its application to three cases and the reports attained have been satisfactory so far as designs and the preparation for working drawings and specifications are concerned but in the matter of actual construction and superintendence of the works so favorable a statement cannot be made. It is therefore suggested with a view to improving the conduct of business under the act referred to so as to secure all the advantages contemplated by that legislation and remedy the practical defects before mentioned that the department if legally warranted should limit the services supplied by the architect successful under the competition to the furnishing of the design the working drawings full size details and specifications leaving the superintendence of actual construction under the charge of the supervising architect's office.

PERSONAL MENTION.

George Jackbar and Truxton Martin returned yesterday from Denver where they spent several days.

Mr Inwood wife and child of Charlotte Mich have arrived in the city for a visit of several weeks.

J L Mezner wife and child left on the Midland road yesterday for Seattle and other points on the Pacific coast for a visit.

Mr J H Middaugh and wife leave this morning on the Santa Fe for California where they expect to spend a large part of the winter.

Mr George Bentley left yesterday afternoon on the Rock Island with the remains of his wife. The burial will be at Oskaloosa Ia tomorrow.

Harry L Ross the manager of the Colorado College Glee club leaves today for a trip west as far as Salt Lake for the purpose of arranging the winter tour of the club.

Prof Lowell M McAfee of Park college at Parkville Mo leaves today for his home. He has been spending about a week here with his mother at 720 North Tejon street.

Mr Will H Thomas and Leon Fuller members of the High school football team have left school and gone to Cripple Creek where they have positions in one of the mines.

Mr and Mrs Sam Pernard returned yesterday from Europe where they spent several months. Their stay was continued for some time in Paris by the sickness of their young son.

Mr R D Douglas of New York arrived in the city yesterday and is visiting his sons who have a cottage at Broadmoor this winter. Mr Douglas is a relative of the late R O Dun the financial agent whose death was reported lately and was one of the principal heirs to that great estate. He will be here some time.

ALONZO WELTY, A PIONEER RESIDENT DEAD

The many friends of Alonzo Welty will be grieved to learn of his death in Cripple Creek yesterday morning. Mr Welty was very well known in this city and Cripple Creek where he had many business interests lasting for there for many years. When the place where Cripple Creek now stands was nothing but a bare plain Levi Welty built a log cabin there and brought his cattle to pasture on the grass in the summer time. When the first discoveries of gold brought thousands of prospectors to the place this same Welty was the father of Alonzo Welty and John Bunyan were and from that time to this father and son have been the most prominent and prosperous of the citizens of Cripple Creek.

Seven years ago Alonzo Welty and his wife were driving in a buggy when the horse became frightened and ran away. Mrs Welty was seriously injured and died from the effects of the accident. Mr Welty escaped with a broken leg and a few minor injuries. Later having met with reverses he started to develop some of his mounds but he was a large man and the confinement to his bed brought on serious complications from which he died at 11 30 yesterday morning.

He leaves a host of friends to mourn his death, besides his father sister and brother in law. Mr Merl Parsons his brother in law who resides at 1515 North Tejon street was seen last night, but said that he could tell nothing about the funeral arrangements at present although the interment will probably be in Evergreen cemetery in this city. Mr Welty was 46 years old at the time of his death.

RARE MUSICAL TREAT AT PERKINS TONIGHT

The song recital of Mr George Crampton will take place in Perkins Fine Arts hall tonight at 8 o'clock. Mr Crampton who has been heard in this city a number of times will introduce a programme of new songs most of which have made big successes in the east and in Europe. His splendid baritone voice is capable of rendering the most difficult selections. Mr Crampton will be assisted tonight by Mr Rubin Goldmark who will play the accompaniments and by Mr Louis J Soutter and the Colorado College glee club. It will be a musical treat of rare excellence. Tickets are 50 cents and are on sale at the Hext Music company and Chamberlain's drug store. Any fashionable audience is already assured. Following is the programme to be rendered.

Aria—Mighty Lord (Christmas Oratorio) Bach

Two Wilitea] Songs Dvorak

Traume (A study of Tristan and Isoulde) Wagner

Wie bist du Meine Koenigin Brahms

Ballad—Archibald Douglas Loewe

Violin solo—Adagio (Violin Sonata) Caesar Franck

Mr L J Soutter

The Soul's Expression (Song cycle) Words by E Barrett Browning music by Coleridge Taylor

Scene—Hiawatha's Vision and Farewell—Hiawatha's Departure Coleridge Taylor

Glee club—Drink to Me Only Old English

Harold Harfarger Werner

Cantellation—The Story of the Faithful Soul Adelaide Proctor

Music by Stanley Hawley

The West Wind Croons in the Cedar Tree McDowell

Old Melodies—

Su Sie Danish

Det er den Storste Song Swedish

Father O Hynn Irish

Widdicombe Fair English

Cavalier Songs

Words by Robert Browning music by C Villiers Stanford

George Crompton and Glee club.

Two carloads of Christmas toys for Kaufman's basement.

The Caledonian Society

of Colorado Springs will celebrate St Andrews Day Friday Nov 30 by a concert and dance in K P hall De Graff building. The profits from these will be donated to the bazaar fund Glockner Sanitarium. A full programme of vocal and instrumental music will be rendered by some of the best local talent and a special feature will be the appearance of Wee Willie Dougall the prize dancer in Highland dancing Sailor's Hornpipe and Irish Jig. Full programme later.

Concert at 8 p m—Tickets 25 cents each, to be had at Robinson's Drug store or of the officers of the society.

Dancing at 10 30 p m—Tickets including ladies 50 cents. Refreshments free.

Don't miss seeing Wee Willie Dougall.

Keep your eye on Kaufman's basement for Christmas toys.

Winter Resort for Invalids

Old Mexico with all its fascinations and attractions as a winter resort for invalids has attracted little attention because of the discomforts encountered in the miserable hotels of the country and the lack of proper medical supervision. The splendid sanitarium recently opened at Guadalajara as a branch of the Battle Creek Mich institution removes this obstacle, and many are planning to avail themselves of the benefits offered by the unrivaled winter climate of Old Mexico in connection with sanitarium care.

BRIEF CITY ITEMS.

FUNERAL TODAY—The funeral of the late Joseph Maddy will take place from the residence of his daughter Mrs A H Seely of 13 South Sixth street today.

LECTURE TONIGHT—Rev C Vingren of Omaha will lecture at the Swedish Baptist church 15 Boulder place tonight at 8 o'clock. His subject will be Mission Work in China.

STATED CONVOCATION—A stated convocation of Colorado Springs chapter No 6 R A M. will be held this evening at 7 30. Visiting companions cordially invited.

FOR THE POOR—Those who desire to assist the Associated Charities in providing Thanksgiving dinners for the poor families may report to the office of the things in to Mr Carrington as soon as possible.

PEOPLE'S MISSION—At the Peoples Mission 7 West Huerfano street Dr W H H Hyde will lecture in the readings from the Virgin Greek this afternoon at 3 o'clock and tonight at 7 30. He will hold similar services tomorrow at 10 30 a. m. and 3 p. m. and 7 30 p. m.

WILL CLOSE—The clothing stores of the city will close all day Thanksgiving day. They will remain open in the evening of Wednesday to accommodate customers. The Johnson and Wilbur dry goods store will be closed all day Thursday on account of Thanksgiving day.

POLICE NEWS—The police had a sale of horses yesterday that have been impounded. Two mules and a horse were sold. The police found a good many wheels standing about Sunday night and are holding them if their owners can be found. Seven men were fined for being drunk yesterday before the police magistrate. One of two fell and the others were committed.

NEW INVENTION—Mr Robert B Robertson who until recently was associated in the jewelry business on South Tejon street has just been granted a patent through Mr G B Price of 11 North Tejon street on a power attachment to vehicles. This device which is readily attachable to carriages and wagons, converts them into automobiles. Mr Robertson hopes soon to organize a company for properly placing his invention before the public.

MILITARY BALL—The grand ball of the Patriarchs Militant which occurs at the Temple theater on Thursday night will be a military affair to a considerable extent. The uniformed bodies of the Maccabees the Knights of Pythias and the Odd Fellows have been invited to be present in full regalia. Chief Ashfax will entertain the other bodies as the guests of the evening. It will be one of the prettiest balls of the winter.

A WORTHY OBJECT—A movement is on foot among the friends of the late Police Magistrate George F Owen for the relief of Mrs Owen and her infant son. They are in great need and a subscription list is being passed around to raise money for them. It is through no fault of the late respected police magistrate that his family are in straightened circumstances but his poor health prevented him from laying aside any money as much of his small salary was needed for medicine etc. Friends of the late Judge Owen who are so inclined are urged to hand in subscriptions in any amount to the Police Men's Relief association care of the city hall.

WARRANTY DEEDS—The following warranty deeds were filed for record with the county clerk yesterday. Elizabeth P Leonard to C D Taylor et al a tract of land south of Colorado City $15 000. C D Taylor et al to the Rustic Home Investment Co the same property $15 000. Maggie Whitcomb to Ella Pearl 25 Wolfe and White's subdivision of block 242 $650. J A Leach to Edward Meiskahn lot 4 and part of lot 5 block 22 West Colorado Springs $2 000. S J Mattocks to A M Mattocks part of lot 7 block 1 Edwards addition $4 500.

MRS GARSTIN HURT—Mrs. M. A. Garstin fell Sunday evening while getting off a street car at San Rafael street and Nevada avenue and was quite seriously hurt. It is said that the car started just as she attempted to get off and she fell with great force. She was taken to the house of Mr James A Lockhart, and an examination by the physicians showed that she was suffering from a fracture of the hip bone. Mrs Garstin is quite aged and it will probably be some weeks before she will be able to get about again. Mrs Garstin is one of the pioneer residents and highly respected by all who know her.

LEASES ON THE B. H. AJAX

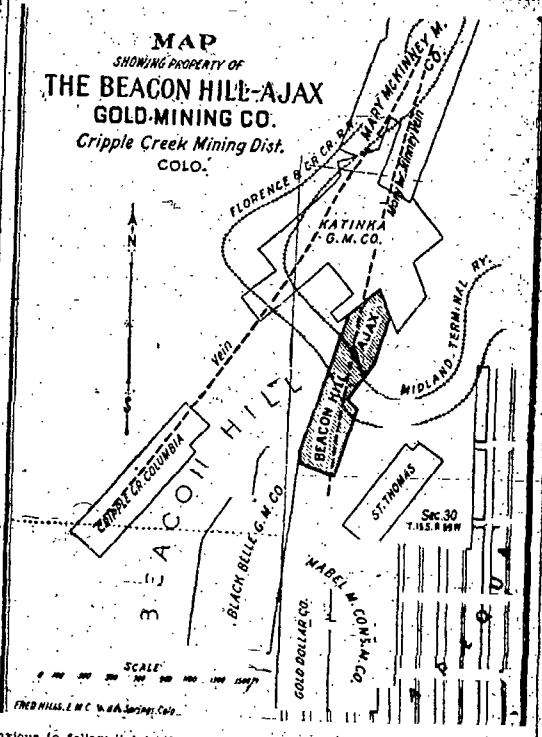
One Just Granted on the South End, Another Will be Let on The North End, and the Company is Working the Middle.

The directors of the Beacon Hill-Ajax company have just granted a lease on the south 300 feet of the claim to George M. Crosby. It will run for a term of 18 months, stipulates for 20 per cent. royalties, and for 300 feet of work a month. The lessee will go to work at once and prospect for the Mary McKinney vein, and probably put down a good shaft when he finds it.

There is an application for a lease on the north end of the claim by the parties who are leasing on the Royal Arch; a fraction which adjoins the Ajax. On this fraction they have opened some promising ore and are anxious to follow it into the adjoining property, and they look for good luck at the point where this vein intersects the main contact. The management considers this application favorable and it is probable that it will be granted right away.

The middle block of the claim will be worked, for the present, on company account. There is a shaft down on that section to the depth of 100 feet, and in prospecting from the bottom of that John Barbee, who is conducting the company's work, has found some very promising rock, and he reported yesterday that it is his opinion pay ore will be opened up there in a short time. It is estimated that the bottom of his shaft is about 50 feet from the Mary McKinney vein as it crosses the claim, and a crosscut will be started at once to intersect it. The vein which is showing in the shaft now is a cross vein which will also cut through the main contact.

A plat accompanies this article which would have been found in connection with the write-up of Beacon hill and the different properties Sunday morning, if the Denver train bearing the cut had not been three hours late. It will make it clear just where the leases have been granted, and also elucidate the article which appeared two days ago. If it be advised to in that connection.



MORNING GLORY, JACK POT, DOCTOR

Workings Will Be Connected for Ventilation--Elizabeth Cooper Shipment--Madeline Lessees Have a Good Ore Body.

Special to the Gazette.

Cripple Creek, Nov. 26.—A connection is being made between the Morning Glory, Jack Pot and Doctor workings at a depth of about 500 feet from the surface. The connection is for ventilation and is being run on the Jack Pot vein, the Woods Investment company drifting to the east and the Doctor operators drifting to the west to the Jack Pot claim. When this is done all three of the properties can make a better headway obviating the difficulty of bad air which caused the Doctor to close down last week.

A shipment of 50 tons of ore was sent out today from the Smith lease on the Elizabeth Cooper of the Nugget company. The ore has been averaging better lately returning about five ounces to the ton and this shipment is expected to be about the same grade.

From two to three car loads of smelting grade ore per week is being sent out from Judge Burris' lease on the Little May on Beacon hill. The ore is coming from the drifts to the east and the west of the shaft at a depth of about 160 feet.

A shipment of 30 tons of smelting grade ore was sent out today from the tunnel level of the Bonanza King.

The Alamo company, operating the Alamo on Gold hill, has started a crosscut east for the big phonolite dike known to exist not far from the shaft. The crosscut is being run at a depth of 200 feet.

The lessees working the Home shaft of the Commonwealth company on Beacon hill are sinking on a good four-foot vein with occasional excellent values.

A 60-horse power boiler is being installed on the Hoosier claim owned by the Grafton company on Tenderfoot hill. A large amount of development work is being carried on in addition to the regular shipping. This amount of work necessitated a new boiler and other improvements which are being made.

The lessees operating the Madeline on Gold hill have cut a good ore body at a depth of 225 feet. The rock is rich in sylvanite and free gold and it is but natural that the Madeline should develop into a strong shipper in line with the other important developments which are being made on Gold hill.

Sinking is being vigorously prosecuted in the Bonnie Nell shaft on Raven hill. At the present depth, about 360 feet, the vein has widened out to four feet and the ore body is holding an average of about $10 to the ton. The company will make no effort to produce any ore until the development work which is being done shows up a better ore body. The shaft will be put down to about 400 feet and extensive lateral work carried out.

McEnnis & Co., leasing the west block of the Pauper on Bull hill, have extended their crosscut north of the shaft about 30 feet at the 80-foot level, and are getting good assays from the dike, although no vein has been cut. The ore is nearly pay, running about $16 to the ton. The crosscut is being continued to catch the Deadwood vein.

HEAVY PLANT FOR COLUMBIA

The New Management Will Install a Plant Capable of Operating to a Depth of 1,000 Feet, and Pumps as Well.

As soon as the forthcoming annual meeting of the stockholders of the Cripple Creek Columbia Mining company has placed the control of the company's affairs in the hands of the gentlemen who now hold a control of the stock, arrangements will be rushed for the installation of a heavy plant of machinery on the property.

There is a very good plant over the shaft now, but it will be necessary to have a heavier one in order to do the work which the new management will execute. The new plant of machinery will include an 80-horse-power boiler, an 8x10 hoist, capable of operating to a depth of 1,000 feet, and as many pumps as will be needed in order to resume sinking.

The shaft is now down to a depth of 340 feet, and water encountered at that point made it impossible to go any deeper, but when the pumps are working it will be the purpose of the management to attain the depth of 400 feet as rapidly as possible.

The lessees on this property are now working in four veins on two levels, and a report received yesterday afternoon stated that a drift to the north in the 300-foot level had broken into some good looking ore, and that the developments in the bottom level are very satisfactory.

It is the theory of the management that all four of the veins, which were much further apart in the Kimberly than they are in the Columbia, will come together in their ground, and they are going to work for the junction, where they expect big ore. The work which they have done so far has indicated that the ore shoot has a pitch which will require a greater depth to reach it in the Columbia than in either the El Paso or the Kimberly.

It is expected that the heavy plant of machinery will be in operation about the first of the year, after which vigorous development work will be done.

STRIKE IN THE COMMONWEALTH

At a Depth of 175 Feet Lessee Holmes Has a Vein Which Assays Between $15 and $42 in Gold to the Ton--Property in Arequa.

Word was received at the offices of the Commonwealth company in this city yesterday to the effect that a good strike has been made on the Home claim, operated by Lessee Holmes.

The strike was made in the shaft, which is now down to the depth of about 175 feet, but as only part of the vein was in the shaft, it has not yet been learned how wide it is. At present there is between two to three feet of the vein showing, and the matter which it carries yields assays from $15 to $42 in gold to the ton. The ore shows sylvanite, and picked samples run vastly richer, but the assays given represent the average value of the ore which is exposed.

It was reported a few days ago in these columns that a good showing had been found on this company's property, which lies near the St. Thomas and many other active Arequa and Beacon hill producers, but it was not until yesterday that any definite information was received.

Lessee Holmes has already started a drift on the vein at the present depth, and will attempt to prove up the ore as rapidly as possible in order to determine its extent. He gives it as his opinion that the next few days will show some very satisfactory developments.

MINING NOTES AROUND TOWN

The little jump in Fulton-Marguerite shares yesterday afternoon on changes caused some comment in mining circles, but so far as can be learned there is no especial reason for any advance. The property is in good condition, reports an officer, but there are no new developments of which the local offices have been informed. It will be remembered that the company owns well located ground on Raven, Gold and Carbonate hills, and that on its Fulton claim, on Raven hill, there is some good development work being done. The stock yesterday advanced from 4½ to 5 cents.

GOLD BOND COMPANY WILL SINK 300 FEET.

The Gold Bond Mining company has decided to sink a new shaft to a depth of 300 feet on the center of its group of claims on the western slope of Gold hill. The company owns 18 acres of ground in this vicinity, and the only part of the acreage which is not being developed by lessees is the small block on which the company will sink. The shaft will be in a convenient location for developing the entire property when the leases expire. There are seven leases at work, all doing good work, and the recent strike of Ross & Hummer at the depth of 97 feet from the surface has been one of the sensations of the past week. The lessees have been sinking a winze on the ore, and while it was going down for a distance of only 20 feet 100 tons of ore were taken out. The second level will be run at the depth of 127 feet, at which point it is estimated 28 feet of lateral work will be required in order to cut the rich shoot. The stock sold yesterday at 14 cents.

ALICE GRAY STOCKHOLDERS WILL MEET THIS EVENING.

The stockholders of the Alice Gray Gold Mining company will meet this evening in the Out West Printing and Stationery company's job department. The election of directors and such other business as may come before the meeting will be attended to, and it is understood that some matters of considerable importance are to come up for the action of the stockholders.

ECLIPSE CONS. IS SAVING ORE FOR A SHIPMENT.

A shipment of ore is now being saved from the new drift south of the 350-foot station in the property of the Eclipse Consolidated company. The ore is not wide in this drift, but assays very well, and it is thought that a shipment of good value can be marketed. The work which has been done at depth has never located the rich shoot which outcropped at the surface, although many indications have been found in the different drifts of the presence of a rich shoot of ore below. The lessees on block 4 of the property are down 70 feet in their new shaft, at which depth they report good assays.

PUZZLE CLAIM TO BE DEVELOPED THROUGH TUNNEL.

The German American Gold Mining company, a new company owning the Puzzle claim, an Gold hill, has made arrangements to develop that property through the Gold Exploration tunnel. Drifting was recently started on a vein about 900 feet from the mouth of the bore. In one of the drifts a four-inch streak of ore gives assays of $240 in gold to the ton, and a shipment is being saved. The drift in the opposite direction is also in pay ore.

SEARCHING FOR THE SHOOT IN BERTHA B. PROPERTY.

The lessees on the Bertha B., on Raven hill, are still searching for the ore shoot in the two branches of the Moose dike. Some ore was recently encountered, but it did not prove continuous. The Moose vein is known to enter the Bertha B. ground in two forks, the vein having split just before it crossed the line, but so far no work has been successful in finding an extension of the shoot in either branch.

AGNES DIRECTORS INCLUDE U. F. BURNS OF PORTLAND.

The promoters of the Agnes Gold Mining company, owning the Four Brothers, on Beacon hill, have just announced the names of the officers and directors of the company. They are: President, H. H. Dorsey; vice president, Otis E. Young; secretary, F. H. Dunnington. These, with James F. Burns, Fred E. Robinson and Fred L. Ballard, constitute the directorate. The treasurer will be chosen by the board of directors at their first meeting.

The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative powers, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system. On the contrary, the general health begins to improve from the first dose, for S. S. S. is not only a blood purifier, but an excellent tonic, and strengthens and builds up the constitution while purging the blood of impurities. S. S. S. cures all diseases of a blood poison origin. Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

SSS We are doing great good to suffering humanity through our consulting department, and invite you to write us if you have any blood or skin trouble. We make no charge whatever for this service.

The Best Buy On the Market

IS Cripple Creek Gold Exploration

At its present low price.

It Should Be Purchased at Once

in as generous amounts as possible, for handsome profits and for a safe, sound and conservative investment.

The company owns **150 acres of patented ground,** located close to and in the same formation as the famous Gold Coin mine. The company has $15,000 cash in the treasury, and probably $75,000 additional will come to it from the sale of Victor town lots.

On the May Belle lease a fine body of rich sylvanite ore has been opened up, and vigorous development work is in progress.

There is also an encouraging showing in the Gloriana lease.

This stock is a **Great Bargain** at present prices, **Buy it generously.**

For Safe Investments That Promise Splendid Profits

Buy at once **Progress** and **Constantine Consolidated.**

These stocks are backed by large and valuable acreage, good management and active development work which has been successful in opening up good ore-shoots. **Progress** is selling around 6½ and **Constantine** at about 6¾, and at these figures they offer splendid money-making opportunities.

A Cheap and Good Dividend Payer

which should be purchased at its present low price for about $1.00 per share, is **Gold King.** If bought now and put away, it will return excellent interest on the money invested, and will also bring good profits.

Rooms 59-66 Hagerman Building, Colorado Springs, Colo; U. S. A.

Cable Address: "SYNDICATE, COLORADOSPRINGS."

St. Thomas

In our opinion, is the making of one of the big mines of the Cripple Creek District. It holds, not only the extension of the Gold Dollar, Zoe, and Mabel M. veins, but the Mary McKinney-Katinka vein also crosses the ground. At the intersection of these veins in St. Thomas ground large and rich ore shoots undoubtedly occur and one is already disclosed, showing good shipping ore.

We believe the stock is a buy on its present showing up to 25c per share.

Zoe and Lucrative

are sure winners.

Zoe will pay its first dividend on Christmas day, and Lucrative is steadily developing into a big mine.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Nov. 26—The market opened this morning on the Colorado Springs Mining Stock exchange heavy, but inclined to weakness. The mines list was well patronized, but most of the stocks were lower, while among the prospects stocks prices were rather uncertain and weak. There is still considerable—a good—interest in some of the more attractive of the lower-priced stocks, however, and some advances were made today in those. The trading was quite general and spirited, and no particular apprehension could be seen among the brokers on the floor over the prices.

The market in the afternoon was not quite so heavy as it was in the morning, but prices were better all down the lines. Elkton and Isabella strengthened up to some extent, and the prospects were almost universally better. The feature of the call was Eclipse Consolidated, which advanced under good trading to 10, due to favorable reports of the property, and Nellie V. sold up to 8⅝. This stock has been somewhat stronger of late owing to the work which the company has started. Wide Awake sold up to 6¾. Ernestine was stronger again, closing at 2½, Rattler was quite strong and active at 6¼, and Sedan advanced to 7⅝ under good trading. St. Thomas was in good demand at 8¾, and Pointer was slightly stronger, but Zoe remained at 12. The feature of the trading in the pit call was Fulton-Marguerite, which sold up to 4 quite rapidly.

The trading for the day amounted to 1,079,800 shares, of which the cash value was $130,587.

COLORADO SPRINGS
INVESTMENTS

Struck Oil

To the Investor, large or small

There is no avenue of investment open in the United States, that pays such princely returns as the Fuel Oil fields of California. This infant industry, now producing three hundred thousand barrels per month, promises for the future returns almost beyond belief. Note, we say, Fuel Oil, no trust or syndicate can control the price or crush the small operator, through the means of refineries, for this product is ready for the market as it comes from the ground, and the market is waiting for it. What a wonderful market it is.

From the rapidly growing industries of our great Pacific states, stimulated anew by "expansion" and the "open door" in the Orient. From all the railroads that traverse that great slope west of the continental divide and all the steamships that touch the coast and plow the Pacific seas is NOW coming the ever increasing demand for oil for fuel. And with a known oil territory four hundred miles long and from six to forty miles wide, what a magnificent future is assured to the industry. Is it too much to say that this is the greatest opportunity for profit in the United States today? We think not.

THIS IS THE PROPOSITION

The Colorado and California Fuel Oil company has leased for fourteen years, forty acres of PROVEN SURE oil lands, in Kern county, California, Sunset district. This is in one of the richest oil territories of California and where the big gushers have sent lands to fabulous prices. We have leased this on a royalty of one-quarter of the gross product. This forty acre is indorsed by Mr. W. E. Youle, superintendent of some of the big companies operating there and a man of ten years experience in California oil fields. His letter can be seen at our office. Also Mr. W. P. McIntosh, who is a practical man of long experience in judging oil lands and in the operation and drilling of wells. Furthermore one of the largest and best wells in the district adjoins our lands. This well is unfinished, but gushes oil and gas at a tremendous rate. On three sides are wells going down by a large and substantial company who guarantee oil in paying quantities or money refunded to share holders.

The material to build a railroad to this district is all on the ground and work will be pushed. All the facts and figures to prove absolutely what we say can be had at our office. This company is incorporated in Colorado, capitalized at three hundred and fifty thousand shares and non-assessable. We will drill twenty wells on this tract ONE well producing two hundred and fifty barrels a day will show a net profit to the company of forty-eight thousand dollars a year and one acre of the oil sand is figured to hold over [illegible] thousand barrels of oil worth one dollar a barrel at the well. The price of stock for the first fifty thousand shares is 12½ cents per share. Each share carries an option on one more share after oil is struck at 17½ cents a share.

Here's Another. Oil guaranteed or Money Refunded

The Blodget Oil Company

This company is capitalized at five hundred thousand shares, lease for fourteen years on forty acre tracts—total one hundred and sixty acres situated on three [illegible] by the first company mentioned above. Royalty one-eighth of the oil in pipe.

This is the Company mentioned above that guarantees Oil in paying quantities or money refunded to shareholders.

Fifty thousand shares of this stock at 25 cents a share [illegible] equal number for thirty days after oil is struck, at 30 cents a share. The [illegible] mind that the guarantee of oil in paying quantities is a fact, as oil by the [illegible] giving the investor in both cases the "dead mortal cinch" if there ever is one.

Let those who have better propositions than these "let them out."

We believe these stocks will both advance largely in a short time. We are investing our own money, expecting much larger returns than four times the investment.

Among the officers and directors of this company are Bob [illegible] Jewett, president of the Kern Valley bank, Bakersfield; C. N. Beal, president of the Santa Fe Railway, San Francisco; H. A. Blodget, cashier Kern Valley bank, Bakersfield; A. S. Munson, manager Munson Investment company, Colorado Springs; James O'Hara, secretary of Operators Oil [illegible] Depositories: First National bank, Colorado Springs; Kern Valley bank, Bakersfield, California.

For samples of the product, maps and particulars relative to the [illegible] also the guarantee made on the [illegible] stock will be [illegible] immediately send.

Munson Investment Comp'y

ANOTHER BEACON HILL WINNER!

The Property of the

...AGNES...

Gold Mining Company

is located on Beacon Hill, Cripple Creek, Colo., on the famous granite contact along which the recent marvelous discoveries have been made in the **Mabel M., Zoe, Gold Dollar,** and **Prince Albert.**

The Company

will install machinery at once and explore the contact at depth from the 185-foot level.

It also has the Beacon vein, upon which a shaft is now being sunk at a depth of 145 feet, to get under the ore found in the 110-foot level.

The AGNES Property

adjoins the Mabel M. and St. Thomas and will be vigorously developed by the Company.

THE DORSEY INVESTMENT COMPANY, Colorado Springs.

TO CARRIE S. STOCKHOLDERS

A Circular Which Has Been Issued Them, the Publication of Which Now May Clear up Some Current Contradictions

The following circular letter to Carrie S. stockholders may clear up some of the contradictions which have been heard of at the time of the company's indebtedness the amount of its holdings etc

To the Stockholders of the Carrie S. Gold Mining company

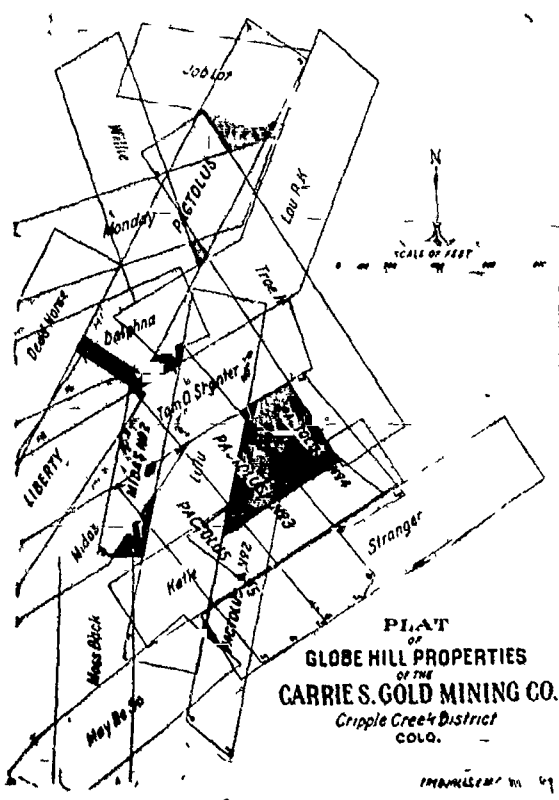
As you are probably aware the affairs of this company have been in a muddled condition for some time past. In August of this year they found themselves in debt to the amount of $1,300 and no funds with which to meet the indebtedness and the Juneau River Smoke Oil Company about five and one half acres on Carbonate Hill but these latter directions have never been patented.

In order to protect the last named claims it will be necessary to expend $400 in doing assessment work for the year 1900. The plat of the company's properties given in Hill's Manual of the Cripple Creek Mining District is not correct.

All of the property of the company was sold by the First National Bank of Cripple Creek, Colo. under execution sale on the 26th day of June 1900 for the sum of $1,378. There are outstanding notes of the company amounting with accrued interest to about the sum of $2,500. These notes were given for legal services and for the services of surveyors for work done during several years past and in connection with patenting and other business of the company. Suit has been brought upon these notes. The company has no funds with which to meet its assessment work for the year 1900 and to carry its general business and pay its debts except the sum of about $450 in the treasury. There are other outstanding bills against the company amounting approximately to about $1,300.

This statement simply covers the bills which have come to the attention of the board of directors and it is therefore estimated that it will require at least $2,000 to clear the company of its debts after using the cash which the company now has. But this would leave the company entirely without funds and it is the opinion of the members of the board of directors that there should be at least $1,000 in the treasury after paying all of the debts of the company. To carry this amount required for the needs of the company is approximately the sum of $3,000.

The circular then continues and requests the assessment of $3 per thousand shares which has been already called in these columns stating that all money must be paid by December 1st to secure the assessment in redeeming the properties from the sale on June 3d.



The Fountain of Youth

"I feel like a boy again!" exclaimed Geo. W. Attridge, a man 97 years old, after a three weeks' course of DUFFY'S PURE MALT WHISKEY. And he looked it too. The ruddy flush of health was in his cheeks, the youthful fire and brightness had returned to his eyes, and in his walk there was all the light-hearted buoyancy and vigor of his early manhood. A miracle? No, that is just what DUFFY'S PURE MALT WHISKEY is doing every day for the feeble and ailing who use it as a tonic and stimulant. It cures like magic.

Abram F. Plimer of Utica, is 110 years old, and has taken no medicine except Duffy's Pure Malt Whiskey for twenty five years.

It is the only Whiskey taxed by the Government as a medicine. This is a guarantee. All druggists and grocers, or direct.

Refuse substitutes. Send for free medical booklet.

DUFFY MALT WHISKEY CO. Rochester, N. Y.

LEASE GRANTED ON ELKHORN

One That Has Been Pending For Some Time Was Finally Let Yesterday to F. Becker for 18 Months--Property on Carbonate Hill.

The directors of the Solitaire Gold Mining company yesterday granted a lease on their Elkhorn mine which has been pending for some time past to F. Becker is the lessee who will be required to do about 90 shifts of work a month and pay 20 per cent royalties. The lease is made out for a term of eighteen months.

The Elkhorn mine is located on the top of Carbonate hill and has produced a good amount of ore having been a shipping mine for some time up to last September when the lease expired and it has been idle since then. For a while the solitaire company thought they might work it on their own account but as a good lessee has been obtained it has been thought wiser to let him work it.

There is a shaft down to the depth of 350 feet on the property but it is thought that the lessee will work on the other end of the claim where there is an 85-foot shaft and where he thinks rich ore shoot is located. He will start work at once.

The company also owns a large acreage further down the hill the Solitaire and Cormack claims on Raven hill and it is the Solitaire company which owns the lease on the Cripple Creek Columbia.

EASTERN MARKETS.

The Metal Market.

New York Nov. 26.—The market for metals displayed general inactivity today. Tin was dull and nominally quoted at $28.50. News from abroad furnishing no incentive in either direction. Lead continues quiet at $4.3-4 while spelter was also quiet and unchanged at $4.50@4.55. Lake copper was dull and still quiet at $17.50@17.75 with pig iron warrants quiet and nominally unchanged at $14.50@15.50. Brokers price for lead was $4 and for copper $1.

The London Market.

New York Nov. 26.—Commercial Advertiser's London financial cable.—The opening of the markets here today was quiet and dull as they usually are just before the settlement but there was considerable improvement in the afternoon on the announcement that the diplomatic situation in Peking had become clearer especially as to the question of a money indemnity.

Americans were quieter but there was a good market for them throughout the session although cable derangements gave rise to only delayed arbitrage dealings. The arbitrageurs were short of Southern railway securities this morning and London taking the hint took them freely. The bank lost £150,000 gold to Egypt. Call money was in active demand. The bank did a large business on loans at 4½ and discounts 4 per cent having the market well in hand. Paris exchange 25.12 Berlin 20.44½.

New York Stocks.

New York Nov. 26.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly over one today and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined to comparatively few stocks. In some stocks the resistance was not more than enough to enable them only to hold their own while a small list showed positive weakness. The course of prices was by no means determined at once. Bear traders operated on the short side of the market for a considerable period after the opening. They based their position on the argument that holders of stocks were inclined to sell on Saturday on the strength resulting from the bank statement but it was not long before they discovered they had a small following this morning. There were rumors flying about the board that prominent bear operators of last week had been taking up long stock again. Notable strength in particular stocks accompanied by rumors of changes of control helped the market and the bears were finally driven to cover. While the strength of the market was renewed there was by no means the large volume of business which has been the average for over two weeks past. Bear manipulation was evident not only here but in foreign markets. But rumors of the czar's death of threatened complications in China and of international friction growing out of the Kruger demonstration in France did not aid the bears much in forcing lower prices. London was a large buyer in this market, sales to the account being estimated at 30 000 shares.

The steel stocks were decidedly unsettled. Steel and Wire showing acute weakness at times. Reports were current of crops contemplated between several combinations in the trade. Amalgamated copper rose way on account of the meager details of the conditions and resources of the company contained in the statement to the stock exchange to secure the admission of the stock to the unlisted department. The drop in this stock and a disposition to realize made the tone of the closing unsettled and prices were below the best, but the gains in the railroads were well maintained.

Money continued easy here and hardened in London resulting in higher rates for sterling exchange.

There was very large buying in St. Louis Southwestern bonds. The market otherwise was strong and quite active. Total sales, par value, $4,130,000.

United States refunding 2s when issued and 5s advanced ½ on the 2d price.

Chicago Grain.

Chicago, Nov. 26.—The gain of December corn over May from a discount a week ago of ¾ to a premium of ¼ today was a feature but Mr Phillips and November corn were the centers of attraction. December opened one cent over Saturday at 46. Phillips bid that figure and kept up with additions, till the market touched 50 cents, the highest price since June 1 when corn on the merits of the legitimate situation ascended to 53. It marks an advance since one month ago today of 12½@13 cents. Shorts were intensely nervous. Mr Phillips credited with being in secure control was placed. Of the 81 cars received today but fifty one graded contract and private elevators delivered to public houses over Sunday only 30,000 bushels. These facts together with the sustaining by committee of Mr Phillips rejection of two cargoes of doctored corn were responsible for the [illegible] and the agitation among shorts. At 50 cents Phillips let out 35,000 bushels. Later the market turned strong in sympathy with corn.

New York Money.

New York Nov. 26.—Money on call steady 3@3½. Prime mercantile paper 4@5.

Sterling exchange firm with actual business in bankers bills at $4.85¾@4.86 for demand and at $4.82½ for sixty days. Posted rates $4.82½ and $4.86½. Commercial bills $4.80¾@4.81¼.

WEATHER FORECAST.

Washington Nov 26—Forecast for Colorado Generally fair Tuesday and Wednesday, variable winds.

See Ashby's window today.

Wise has street blankets well I should say so 14 E Pikes Peak ave

The Colorado Springs Transfer Co moves, packs and stores household goods

Thurlow, Hutton & Williams, Post-office block, have money to loan on real estate security in sums to suit borrowers.

Dust-proof rooms for storage. Furniture packed Padded moving vans Wandell & Lowe, 112 Pike's Peak.

Nov 30 is positively the last day of the big Oriental Rug sale at 15 per cent. discount. 19 East Bijou street.

ALAMO DANCE Thursday night.

MARRIAGE LICENSE—Daniel L. Murray and Clara Hagemeyer, both of this city, took out a marriage license yesterday.

REPLEVIN CASE—Papers were issued yesterday in a replevin suit entitled Eli Aleshire vs J H Wilbur The plaintiff seeks to recover some carpenter's tools.

BUILDING PERMITS—The building inspector yesterday granted a permit to Mr C. P. Bennett for his new house on Wood avenue Isaac Cahn has also taken out a permit to erect a seven-room cottage on Washington avenue to cost $1,600

ARRESTS There was very little business in the police department yesterday only two arrests being made Officer Sixt arrested J. C Carroll, a plain drunk, on South Tejon street yesterday morning and in the afternoon he arrested William McDonald on Huerfano street for drunkenness

THIRD CLASS PARTY—The Third class of the High school will give a party next Saturday evening in the De Graff building Dancing and other amusements will be indulged in and a general good time is expected They have issued about 150 invitations

DAMAGE TO THE HOME—The Printer's Home suffered several hundred dollars worth of damage during the storm last week The covered walk between the main building and the hospital was blown down many windows were broken and the fences were destroyed.

ONE SUIT FILED—Only one suit was filed in the local courts yesterday That was a replevin suit, brought by M J Lynch against George Hackley and C W. Grasee It was filed in the county court No court was held in the district court Judge Stimson was in Cripple Creek and Judge Harris was at Castle Rock

MRS BUELL DEAD—Mrs Benedict Buell died last evening at the Mt View hotel on South Nevada avenue at 6 30 o clock. The cause of death was grip Mrs Buell having been ill for about two weeks. Mr Buell died only a week ago of typhoid fever Mrs Buell will be buried at Evergreen cemetery The funeral will occur tomorrow from St Mary's church at an hour which will be announced tomorrow morning

HAD A RUN—The fire department had a run yesterday morning at 10 o clock An alarm was telephoned in from the Gazette building, where an awning on a third story window on the east side of the building had caught on fire. It was extinguished, however, before the department arrived The origin of the fire is not known, but it is thought that it caught from a cigar, thrown from a window above

SKELTON'S PICTURES—Mr. Leslie J Skelton is about to hold an exhibition of his paintings, which should be interesting to the people of Colorado Springs, owing to the large range of his subjects which are drawn from Venice and other parts of Italy, as well as France, England and Canada. There are also no less than 15 paintings of Estes Park and 20 from Colorado Springs. Many will no doubt be surprised to see the beautiful results which can be secured by a careful study of our local surroundings. There is no charge for admission

Oriental Women

are luxurious in their toilets, but have not the airy daintiness and niceness of American women. Our women have a clear complexion free from roughness and redness This can be obtained and maintained by using

Gutmann's Dry Climate Cream.

It is not sticky nor greasy, and dries in at once so it may be applied at any time It is guaranteed to prevent and cure chapped red, and rough skin and will not injure the skin of even the most delicate baby

A trial bottle will make you a friend to it.

Sapphire Corsets

The Acme of Perfection in Corsets Has Been Reached . . . .

This corset is the foremost corset on the market for style, fit and service, and the public is fast acknowledging its superiority. They are made by the French, on hand sewing machines, each stay being wrapped with kid before putting into place; can be laundered without fear of rust; styled with the straight front, giving the carriage an erect and military bearing. Styles for the stout person that are also made to reduce abdomen, still giving perfect ease. Also styles for the slender, that give a graceful figure

We are closing out lines to make room for this corset. This alone is sufficient proof of our belief

Among the first to be closed out is a line of P. D.'s, in black, white and brocaded effects. Regular price $6.50, $9 50, $10 50. Closing out price **$3.00**

Another lot of P D.'s, that sold for $5 50, late styles and good sellers, now **$2.00**

One lot of the celebrated Red Fern corsets, in black and white, all sizes; were $5.00 and $6.00. To close them out **$3.00**

Also a lot of Red Ferns that sold for $2 75 and $3.25, and were good values at that, now **$2.00**

Odd lot of J. B., P. D. and Warner's Corsets, Regular $1,50 kind, now **$1.00**

Seasonable Goods | **GIDDINGS BROS.** | Reasonable Prices
